Williams, 2012-09-27 Hegel and Nietzsche are two of the most important figures in philosophy and religion

Robert R Williams challenges the view that they are mutually exclusive He identifies four areas of convergence First Hegel and Nietzsche express and define modern interest in tragedy as a philosophical topic Each seeks to correct the traditional philosophical and theological suppression of a tragic view of existence This suppression of the tragic is required by the moral vision of the world both in the tradition and in Kant's practical philosophy and its postulates For both Hegel and Nietzsche the moral vision of the world is a projection of spurious life negating values that Nietzsche calls the ascetic ideal and that Hegel identifies as the spurious infinite The moral God is the enforcer of morality Second while acknowledging a tragic dimension of existence Hegel and Nietzsche nevertheless affirm that existence is good in spite of suffering Both affirm a vision of human freedom as open to otherness and requiring recognition and community Struggle and contestation have affirmative significance for both Third while the moral God is dead this does not put an end to the God question Theology must incorporate the death of God as its own theme The union of God and death expressing divine love is for Hegel the basic speculative intuition This implies a dipolar panentheistic concept of a tragic suffering God who risks loves and reconciles Fourth Williams argues that both Hegel and Nietzsche pursue theodicy not as a justification of the moral God but rather as a question of the meaningfulness and goodness of existence despite nihilism and despite tragic conflict and suffering The inseparability of divine love and anguish means that reconciliation is no conflict free harmony but includes a paradoxical tragic dissonance reconciliation is a disquieted bliss in disaster

Sam Hirst, 2023-07-11 *Theology in the Early British and Irish Gothic 1764-1832* reassesses the relationship between contemporary theology and the Gothic Investigating Gothic aesthetics depictions of the supernatural and portrayals of religious organisations it explores how the Gothic engages with contemporary theologies both Dissenting and Anglican Moving away from the emphasis on either a monolithic Protestantism or on the Gothic as a secular mode it shows the ways in which the Gothic exploration of the transcendent and the obscure cannot be separated from the diverse theologies of its day The project maps how the Gothic not only reflects but actively engages in the theological debates and controversies contemporary to its efflorescence

Rockett, 1988-11-17 As the popularity of the genre increases and special effects are pushed to greater extremes of terror and cruelty more and more people have begun to wonder what is the attraction of horror films Do they have any socially redeeming features Rockett offers some surprising and provocative answers to these questions in his analysis of the cinema of cruelty First commenting on our fascination with experiences that transcend the world of ordinary reality he looks at film as a means of expressing the dark side of human nature Next he examines the essential ingredients that go into the making of a horror film the variations that are found within the genre and the links between the best horror cinema and Artaud's

Theatre of Cruelty Echoing Artaud Rockett argues that human beings are attracted to horror in films because of an unconscious craving for a reality in which the demonic supernatural acts as a living whirlwind devouring the darkness and bringing viewers closer to the transcendence they are actually seeking The final chapter shows how the finest works in the horror genre achieve this underlying aim He discusses filmmakers such as Roman Polanski who have been able to provide the realism and artistic quality that contemporary audiences demand while preserving the ambiguity and terror necessary to experience the power of transcendent force Rockett s skillful and imaginative exploration of the subject will be appreciated by scholars and general readers concerned with popular culture film literature drama and contemporary social issues
