Schwartz,2026-05-13 Building on the success of her first book that explored the father daughter relationship Susan Schwartz turns her attention to the father son dynamic in this compelling new work Drawing on the fields of psychoanalysis Schwartz applies the concepts of absence to the Jungian concept of the search for the self This fascinating book examines the profound psychological and cultural consequences of father absence a topic often overlooked in Jungian explorations of the psyche clinical studies and case examples Through vivid vignettes Schwartz delves into the generational trauma and neglected complexities of the father son relationship She highlights how the absence of a father figure shapes individual and collective experiences offering insights into the psychological impact and the broader cultural implications Her exploration sheds light on the unspoken grief and unresolved tensions that ripple through families and society providing a fresh perspective on Jungian concepts regarding this critical yet underexplored subject This is an essential resource for analytical and depth psychologists therapists academics and students with Jungian and post Jungian interests It also serves as a valuable guide for anyone seeking to understand and heal the intricate dynamics between fathers and sons

Madness and Creativity Ann Belford Ulanov,2013-03-20 Analyst and author Ann Belford Ulanov draws on her years of clinical work and reflection to make the point that madness and creativity share a kinship an insight that shakes both analysand and analyst to the core reminding us as it does that the suffering places of the human psyche are inextricably and often inexplicably related to the fountains of creativity service and even genius She poses disturbing questions How do we depend on order when chaos is a necessary part of existence What are we to make of evil both that surrounding us and that within us Is there a myth of meaning that can contain all the differences that threaten to shatter us Ulanov s insights unfold in conversation with themes in Jung s Red Book which according to Jung present the most important experiences of his life themes he explicated in his subsequent theories In words and paintings Jung displays his psychic encounters from 1913 1928 describing them as inner images that burst forth from the unconscious and flooded me like an enigmatic stream and threatened to break me Responding to some of Jung s more fantastic encounters as he illustrated them Ulanov suggests that our problems and compulsions may show us the path our creativity should take With Jung she asserts that the multiplicities within and around us are paradoxically pieces of a greater whole that can provide healing and unity as in her words every part of us and of our world gets a seat at the table Taken from Ulanov s addresses at the 2012 Fay Lectures in Analytical Psychology Madness and Creativity stands as a carefully crafted presentation with many clinical examples of human courage and fulfillment

Jungian Thought in the Modern World Elphis Christopher,Hester Solomon,2000 C G Jung 1875 1961 was a man of the millennium His personal history parallels the history of the last century and is especially relevant to the current movement where themes not only from the last century but also the last millennium are being gathered in anticipation of the new era Jung s life and work touch on the past century s two major themes on the one hand the discovery and mapping of the unconscious an internal source of creativity and destruction for each individual and on the other hand those outbreaks of dreadful violence and expressions of awesome creativity that can erupt from within the unconscious of humankind as a whole

Merrill-Palmer Quarterly of Behavior and Development ,1971 **Thomas Kinsella** Donatella Abbate Badin,1996 As the author of verse ranging from the personal and psychological to the satirical and political Thomas Kinsella is one of Ireland s most distinguished poets and critics He has been labeled an enigma while his early work is rooted entirely in an international literary tradition his later poetry influenced by Jungian philosophy and Irish myth has been called ponderous obscure and abstract In Thomas Kinsella author Donatella Abbate Badin emphasizes the continuity in Kinsella s early and later poetry focusing on the interdependence of his works She argues that when the poet s themes and images are explored carefully they constitute an organic whole Deeply grounded in both the present and the mythical Irish experience Kinsella s poems are reflections of the life of the poet himself
