century authors and their immersion into and interaction with American culture in the second half of the twentieth century

Traditions and hearthside stories of west Cornwall William Bottrell,1880 **Stories from the State Papers** Alexander Charles Ewald,1882 **Waterstone's Guide to Books** Waterstone & Co., Ltd,1989 *Giving the Devil His Due* Jeffrey Andrew Weinstock,Regina M. Hansen,2021-10-05 Finalist 2021 Bram Stoker Awards Superior Achievement in Non Fiction

The first collection of essays to address Satan's ubiquitous and popular appearances in film. Lucifer and cinema have been intertwined since the origins of the medium. As humankind's greatest antagonist and the incarnation of pure evil, the cinematic devil embodies our own culturally specific anxieties and desires reflecting moviegoers' collective conceptions of good and evil, right and wrong, sin and salvation. *Giving the Devil His Due* is the first book of its kind to examine the history and significance of Satan onscreen. This collection explores how the devil is not just one monster among many, nor is he the prince of darkness merely because he has repeatedly flickered across cinema screens in darkened rooms since the origins of the medium. Satan is instead a force active in our lives. Films featuring the devil therefore are not just flights of fancy but narratives sometimes reinforcing, sometimes calling into question, a familiar belief system. From the inception of motion pictures in the 1890s and continuing into the twenty-first century, these essays examine what cinematic representations tell us about the art of filmmaking, the desires of the film going public, what the cultural moments of the films reflect, and the reciprocal influence they exert. Loosely organized chronologically by film, though some chapters address more than one film, this collection studies such classic movies as *Faust*, *Rosemary's Baby*, *The Omen*, *Angel Heart*, *The Witch*, and *The Last Temptation of Christ*, as well as the appearance of the Devil in Disney animation. Guiding the contributions to this volume is the overarching idea that cinematic representations of Satan reflect not only the hypnotic powers of cinema to explore and depict the fantastic but also shifting social anxieties and desires that concern human morality and our place in the universe.

Metafictionality has become the cornerstone of the stylistic zeitgeist of science fiction, fantasy, and horror in the twenty-first century. This trend reaches back to literary experiments first undertaken and developed during the science-fictional New Wave. This vein of experimentalist and frequently stylistically complex science fiction from the mid and late twentieth century, however, often does not look much like the parallel experiments found in postmodern fiction in the 1960s. Such texts frequently embed their self-referential fireworks in genre conventions and tropes, masking the extent of their experimentalism. Such worlds, however, ask difficult questions of

the genre itself What world is being portrayed and is it even possible How alien can science fiction really be What even is a science fiction world How do we understand a science fiction world What part does the reader play in the creation of the science fiction world Using narratological and stylistic analyses of Kurt Vonnegut Samuel R Delany Ursula LeGuin Joanna Russ and Brian Aldiss this book provides answers to the question of how science fiction is so perfectly formed to ask these kinds of questions of its own world and fictional praxis and explores how these texts allow those worlds to wrap back on themselves in an endless prismatic spiral of self awareness
