General Leslie R. Groves

The General And The Bomb:

The General and the Bomb William Lawren,1988 General Groves blev projektofficer p Manhattan Project Udvikling og produktion af atombomben Mange hjerner og h nder skulle aktiveres og samordnes megen usikkerhed pr gede denne atmosf re og der skulle en st rk og ansvarsbevidst h nd til at styre og presse projektet til en succesfyldt afslutning Now It Can Be Told Leslie M. Groves,2009-08-11 A first person account of the Manhattan Project by the general who hired and worked alongside Robert Oppenheimer General Leslie Groves and J Robert Oppenheimer were the two men chiefly responsible for the building of the first atomic bomb at Los Alamos code name the Manhattan Project As the ranking military officer in charge of marshaling men and material for what was to be the most ambitious expensive engineering feat in history it was General Groves who hired Oppenheimer with knowledge of his left wing past planned facilities that would extract the necessary enriched uranium and saw to it that nothing interfered with the accelerated research and swift assembly of the weapon This is his story of the political logistical and personal problems of this enormous undertaking which involved foreign governments sensitive issues of press censorship the construction of huge plants at Hanford and Oak Ridge and a race to build the bomb before the Nazis got wind of it The role of Groves in the Manhattan Project has always been controversial In his new introduction the noted physicist Edward Teller who was there at Los Alamos candidly assesses the general s contributions and Oppenheimer s while reflecting on the awesome legacy of their work The basic story is a thriller as strange as any chapter in American history and its drama is heightened by the general s candor and restraint The New Yorker

The General and the Genius James Kunetka,2015-07-13 With a blinding flash in the New Mexico desert in the summer of 1945 the world was changed forever The bomb that ushered in the atomic age was the product of one of history s most improbable partnerships The General and the Genius reveals how two extraordinary men pulled off the greatest scientific feat of the twentieth century Leslie Richard Groves of the Army Corps of Engineers who had made his name by building the Pentagon in record time and under budget was made overlord of the impossibly vast scientific enterprise known as the Manhattan Project His mission to beat the Nazis to the atomic bomb So he turned to the nation s preeminent theoretical physicist J Robert Oppenheimer the chain smoking martini quaffing son of wealthy Jewish immigrants whose background was riddled with communist associations Groves s opposite in nearly every respect In their three year collaboration the iron willed general and the visionary scientist led a brilliant team in a secret mountaintop lab and built the fearsome weapons that ended the war but introduced the human race to unimaginable new terrors And at the heart of this most momentous work of World War II is the story of two extraordinary men the general and the genius **Racing for the Bomb** Robert Stan Norris,2002 Follows the World War II race to build the atomic bomb while profiling its top commander documenting how Colonel Groves organized the collection of the necessary funds and materials while orchestrating solutions to thousands of technical problems **Safe Schools Act, Hearing Before the General Subcommittee on Education..., 93-1, on H.R.**

2650..., February 26, 1973 United States. Congress. House. Education and Labor,1973 *Flight* ,1928 **Politics and the General in Supreme Command** Richard Adams,2024-11-25 This book argues for reform of the convention that when politicians decide on a course of action the general in supreme command obeys without question The entire spread out chain of command is unified in the general who offers the only connection between the military and politics Offering the sole connection between the military and politics only the general can turn political directions into military command and capacitate war Thus the general has unique opportunity to resist unconscionable direction to launch an unjust war or to conduct or expand war unjustly This book argues for reform so the general has the right in law to refuse direction which is lawful but awful The legal capacity to refuse would mean the general would be expected to act responsibly not merely as the unresisting pawn of politics Such reform creating legal opportunity for the supreme command to refuse lawful but unconscionable directives might avert unjust war This book will be of much interest to students of the ethics of war civil military relations and international relations **Summary of Information. Second Section, General Staff. General Headquarters American Expeditionary Forces. Series 2** United States. Army. American Expeditionary Forces. General Staff, G-2,1918 **The General Magazine and Historical Chronicle** ,1928 Outlook Alfred Emanuel Smith,Francis Walton,1921 **Automotive Industries, the Automobile** ,1919 **Legislative Documents Submitted to the ... Now It Can Be Told General Leslie R. Groves,1983-03-22 General Leslie Groves and J Robert Oppenheimer were the two men chiefly responsible for the building of the first atomic bomb at Los Alamos code name The Manhattan Project As the ranking military officer in charge of marshalling men and material for what was to be the most ambitious expensive engineering feat in history it was General Groves who hired Oppenheimer with knowledge of his left wing past planned facilities that would extract the necessary enriched uranium and saw to it that nothing interfered with the accelerated research and swift assembly of the weapon This is his story of the political logistical and personal problems of this enormous undertaking which involved foreign governments sensitive issues of press censorship the construction of huge plants at Hanford and Oak Ridge and a race to build the bomb before the Nazis got wind of it The role of groves in the Manhattan Project has always been controversial In his new introduction the noted physicist Edward Teller who was there at Los Alamos
