[A Modern Economic History of Emerging Markets \(1950-2020\)](#) Ahmet Akarli, 2024-09-20 This book offers a comprehensive economic history of emerging market economies post WWII and

identifies a complex web of sustainability problems that face the EMEs going forward. It seeks to present a truly global perspective on the development of EMEs and the long term trends that have brought EMEs to a critical economic juncture. The first section of the book charts how EMEs became tightly integrated into the global economy at rapid pace analysing economic achievements as well as imbalances and sustainability issues that have been generated over time. It considers how EMEs have withstood episodes of complex structural transitions and financial shocks and offers comparative perspectives on patterns of dispersion within the EME landscape from the end of WWII to the present. The second part of the book seeks to understand how EMEs might cope with the volatility brought about by a new age of disruption defined by major structural challenges to the neo liberal economic order. It considers which EMEs are best positioned to respond to issues of economic inequality, financial excess, technological disruption and climate change, what a global historical understanding of the EMEs can offer to policymakers and the impact on the EME investment landscape.
