**Civilizational Imperatives** Oliver P. Charbonneau, 2020-09-15 In *Civilizational Imperatives* Oliver Charbonneau reveals the little known history of the United States colonization of the Philippines Muslim South in the early twentieth century Often referred to as Moroland the Sulu Archipelago and the island of Mindanao were sites of intense US engagement and laboratories of colonial modernity during an age of global imperialism Exploring the complex relationship between colonizer and colonized from the late nineteenth century until the eve of the Second World War Charbonneau argues that American power in the Islamic Philippines rested upon a transformative vision of colonial rule Civilization protection and instruction became watchwords for US military officers and civilian administrators who enacted fantasies of racial reform among the diverse societies of the region Violence saturated their efforts to remake indigenous politics and culture embedding itself into governance strategies used across four decades Although it took place on the edges of the Philippine colonial state this fraught civilizing mission did not occur in isolation It shared structural and ideological connections to US settler conquest in North America and also borrowed liberally from European and Islamic empires These circuits of cultural political and institutional exchange accessed by colonial and anticolonial actors alike gave empire in the Southern Philippines its hybrid character *Civilizational Imperatives* is a story of colonization and connection reaching across nations and empires in its examination of a Southeast Asian space under US sovereignty It presents an innovative new portrait of the American empire s global dimensions and the many ways they shaped the colonial encounter in the Southern Philippines

**Hollywood's Imperial Wars** Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in *Hollywood's Imperial Wars* The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter* *Apocalypse Now* and *Platoon* As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like *American Sniper* that exalt war heroes are marked as much by the failure of the heroic tropes of

old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts
