Biography Henry James OM 15 April 1843 28 February 1916 was an American born British writer He is regarded as one of

the key figures of 19th century literary realism He was the son of Henry James Sr and the brother of philosopher and

psychologist William James and diarist Alice James He is best known for a number of novels showing Americans encountering

Europe and Europeans His method of writing from a character's point of view allowed him to explore issues related to

consciousness and perception and his style in later works has been compared to impressionist painting His imaginative use of

point of view interior monologue and unreliable narrators brought a new depth to narrative fiction James contributed

significantly to literary criticism particularly in his insistence that writers be allowed the greatest possible freedom in

presenting their view of the world James claimed that a text must first and foremost be realistic and contain a representation

of life that is recognisable to its readers Good novels to James show life in action and are most importantly interesting Extrait
