D.H. Lawrence's Australia David Game, 2016-03-09 The first full-length account of D.H. Lawrence's rich engagement with a country he found both fascinating and frustrating. D.H. Lawrence's *Australia* focuses on the philosophical, anthropological, and literary influences that informed the utopian and regenerative visions that characterize so much of Lawrence's work. David Game gives particular attention to the four novels and one novella published between 1920 and 1925, what Game calls Lawrence's Australian period, shedding new light on Lawrence's attitudes towards Australia in general and more specifically towards Australian Aborigines, women, and colonialism. He revisits key aspects of Lawrence's development as a novelist and thinker, including the influence of Darwin and Lawrence's rejection of eugenics, Christianity, psychoanalysis, and science. While Game concentrates on the Australian novels such as *Kangaroo* and *The Boy in the Bush*, he also uncovers the Australian elements in a range of other works, including Lawrence's last novel, *Lady Chatterley's Lover*. Lawrence lived in Australia for just three months, but as Game shows, it played a significant role in his quest for a way of life that would enable regeneration of the individual in the face of what Lawrence saw as the moral collapse of modern industrial civilisation after the outbreak of World War I. *Theosophical Quarterly*, 1912 *The Theosophist*, 1912 *The Theosophical Quarterly*, 1912 Notices of the Proceedings at the Meetings of the Members of the Royal Institution, with Abstracts of the Discourses Royal Institution of Great Britain, 1914 Notices of the Proceedings at the Meetings of the Members of the Royal Institution of Great Britain with Abstracts of the Discourses Royal Institution of Great Britain, 1913
