## **The Right Questions Truth Meaning Public Debate:**

The Right Questions Phillip E. Johnson, 2009-09-20 An ECPA 2003 Gold Medallion Finalist Phillip E Johnson pries the lid off public debate about questions of ultimate concern questions often suppressed by our society's intellectual elite Moving far beyond matters of creation and evolution Johnson outlines the questions we all ought to be asking about the meaning of human history the limits of scientific inquiry religion and education in a pluralistic society truth liberty and moral choices and God and His Word Jesus Christ Johnson deftly demonstrates how the reigning naturalistic philosophy not only squelches public debate but also constrains us to ask the wrong questions Unless we start with the right questions Johnson argues our discussions will be framed by the assumptions of that very philosophy which must be challenged Johnson asserts that even the Christian church has much too often passively accepted this limiting frame of mind to the detriment of all But Christian faith and conviction instead ought to lead in opening up the search for truth and meaning through the kind of public education that teaches in controversy Then all of us will be prepared to engage in lively informed and civil debate about the questions that really matter Why is it always wrong to mix science and religion What is the ultimate premise the beginning point from which logic should proceed How can a college education prepare students to understand the ultimate purpose or meaning for which life should be lived and to choose rightly from among the available possibilities What is the appropriate understanding of religion in a pluralistic nation where substantial numbers of Christians agnostics Jews and Muslims all need to live together in peace How can democratic liberalism remain viable when severed from its Christian roots What is the most important event in human history Provocative personal persuasive and prophetic Johnson is certain to help us break free from our intellectual and spiritual captivity

difference in the world today and most of all in the lives of people around you [Paranoid Science](#) Antony Alumkal, 2019-04-01 Explores the Christian Right's fierce opposition to science explaining how and why its leaders came to see scientific truths as their enemy For decades the Christian Right's high profile clashes with science have made national headlines From attempts to insert intelligent design creationism into public schools to climate change denial efforts to cure gay people through conversion therapy and opposition to stem cell research the Christian Right has battled against science How did this hostility begin and more importantly why has it endured Antony Alumkal provides a comprehensive background on the war on science how it developed and why it will continue to endure Drawing upon Richard Hofstadter's influential 1965 essay *The Paranoid Style in American Politics* Antony Alumkal argues that the Christian Right adopts a similar paranoid style in their approach to science Alumkal demonstrates that Christian Right leaders see conspiracies within the scientific establishment with scientists not only peddling fraudulent information but actively concealing their true motives from the American public and threatening to destroy the moral foundation of society By rejecting science Christian Right leaders create their own alternative reality one that does not challenge their literal reading of the Bible While Alumkal recognizes the many evangelicals who oppose the Christian Right's agenda he also highlights the consequences of the war on reality both for the evangelical community and the broader American public A compelling glimpse into the heart of the Christian Right's anti science agenda *Paranoid Science* is a must read for those who hope to understand the Christian Right's battle against science and for the scientists and educators who wish to stop it *The Creationists* Ronald L. Numbers, 2006 In light of the embattled status of evolutionary theory particularly as intelligent design makes headway against Darwinism in the schools and in the courts this account of the roots of creationism assumes new relevance This edition offers an overview of the arguments and figures at the heart of the debate [SCP Journal](#), 2003 [Verbatim report of the public discussion on the questions: First: Is the belief in the being of an infinite personal God reasonable? Second: Are the four Gospels authentic and worthy of credit? Between the Rev. Corrected by both disputants](#) Alexander STEWART (Minister of John Street E.U. Church, Aberdeen.), 1872 **The Vulgarization of Christ's Church** Ronnie W. Rogers, 2017-04-14 This book seeks to clarify and demonstrate the incalculable and injurious influence that progressive education has had and is having upon preaching thinking Christianly and the local church Progressive education began at the turn of the twentieth century replacing classical education with what is purportedly a science based education which necessarily results in scientism This seismic shift in public education has not only affected what we learn but how we think In order to enable the church to detect progressivism's deleterious sway and protect herself by being equipped with the progressive revelation of God and thereby counter the influence of progressive education of man I seek to highlight some of the underlying intolerable essentials of progressive education In the companion book to this one *The Equipping Church Somewhere Between Fundamentalism and Fluff* I explain
