The Young Adult Development After Adolescence:

The Young Adult Gene Bocknek,1986 **Emerging Adulthood** Jeffrey Jensen Arnett,2004-08-19 Recently the lives of people from age 18 to 29 have changed so dramatically that a new stage of life has developed emerging adulthood that is distinct from both the adolescence that precedes it and the young adulthood that comes in its wake Rather than marrying and becoming parents in their early twenties most people in industrialized societies now postpone these transitions until at least their late twenties and instead spend the time in self focused exploration as they try out different possibilities in their careers and relationships In *Emerging Adulthood* Jeffrey Jensen Arnett identifies and labels for the first time this period exploration instability possibility self focus and a sustained sense of being in limbo An increasing number of emerging adults emphasize having meaningful and satisfying work to a degree not seen in prior generations Marrying later and exploring more casual sexual relationships have created different hopes and fears concerning long term commitments and the differences between love and sex Emerging adults also face the challenge of defending their non traditional lifestyles to parents and others outside their generation who have made much more traditional choices In contrast to previous portrayals of emerging adults Arnett s research shows that they are particularly skilled at maintaining contradictory emotions they are confident while still being wary and optimistic in the face of large degrees of uncertainty As the demographics of American youth the American workplace and adulthood continue to evolve *Emerging Adulthood* is indispensable reading for anyone wanting to understand the face of modern America Mothers and Daughters Ann F. Caron,2011-04-01 In this positive and illuminating book Ann Caron explores the spirit durability and complexity of the mother daughter bond during a time of mutual searching Daughters hitting their stride after college are setting new standards for themselves and questioning their goals and expectations Mothers themselves going through major life changes are also looking for new ways to express themselves Drawing from her many interviews with women from both groups Caron discusses their joys ambitions frustrations and hopes regarding sex marriage spirituality and careers What clearly emerges is that despite their different generational influences their dreams of finding themselves through connections to others and especially to each other are the same **The ^AOxford Handbook of Developmental Psychology and the Law** Allison D. Redlich,Jodi A. Quas,2023-12-15 In this Handbook experts across multiple disciplines including psychology criminology education law and policy focus on the interface between developmental science and law across crucial but also very different periods of development Coverage includes topics such as prenatal and infant abuse questioning of minor and elderly victims witnesses and suspects treatment of at risk individuals across multiple settings e g criminal courts immigration custody and adoption hearings experiences in prison reentry transitions after incarceration and reproductive and end of life legal rights Insightful and forward looking the Handbook provides crucial foundational knowledge of the field and offers concrete suggestions for next steps and conclusions for practitioners and scientists who are working to push the field forward and use the knowledge

for more informed decision making

Too Young to Run? John Seery, 2011-05-10 Under the Constitution of the United States those with political ambitions who aspire to serve in the federal government must be at least twenty five to qualify for membership in the House of Representatives thirty to run for the Senate and thirty five to become president What is the justification for these age thresholds and is it time to consider changing them In this provocative and lively book John Seery presents the case for a constitutional amendment to lower the age barrier to eighteen the same age at which citizens become eligible to vote He divides his argument into three sections In a historical chapter he traces the way in which the age qualifications became incorporated in the Constitution in the first place In a theoretical chapter he analyzes the normative arguments for office eligibility as a democratic right and liberty And in a political chapter he ruminates about the real world consequences of passing such an amendment and the prospects for its passage Finally in a postscript he argues that younger citizens in particular ought to be exposed to this fundamental issue in civics

Moral Action in Young Adulthood Ralph L. Mosher, 1999 The connection between knowing the right or good thing to do and then actually doing it has long been a puzzle Watch what we do not what we say goes beyond the revealing admission of a former Attorney General of the United States to the broader reality of human behavior Parents teachers employers religious educators and society at large have a deep vested interest in

understanding the relationship between and in knowing how better to educate for consistency in moral knowledge and behavior The past twenty five years have seen much productive research on the development of moral reasoning Doing the right or good act now needs comparable study The unique contribution of this book is its exploratory study of the connection between moral thinking and action Research on this linkage is in its relative infancy A key aim is to begin to throw light on what factors intervene between a person s moral judgment and subsequent action Valuable although untested theoretical models have been put forward concerning this interaction they are used to guide the initial development of questions but not to the exclusion of focusing on the unique insights provided by the young adults as to the process and problems of living one s life morality This book begins with statements from the executive director John N Gardner and the President of the University of South Carolina John M Palms as well as a foreword by Ralph L Mosher Following the foreword this book contains four sections comprised of fourteen chapters Section 1 Origins and Results of the Original Sierra Project 1 Nevitt Sanford on Community and Concern with Moral Values in Higher Education Nevitt Sanford 2 The Aims of the Sierra Curriculum On Leaping Tall Buildings In A Single Bound Ralph L Mosher and 3 Character Development Over Four Years of Undergraduate Study John M Whiteley and Norma Yokota Section 2 Theoretical Underpinnings of the Sierrans Revisited Research 4 Young Adulthood in the Life Cycle 5 Doing the Right or Good Act Theories of Moral Action and 6 Further Theoretical Perspectives on Making Moral Choices Section 3 Narrative Insights into Moral Action in Young Adulthood 7 Moral Dilemmas from Young Adulthood 8 Moral Dilemmas in Interpersonal Relationships 9 Moral Dilemmas in the Workplace and 10 Exemplary Sierrans Moral Influences Section 4 Research Conclusions and Future Directions for Promoting Moral Action 11 Moral Dilemmas of Everyday Life Voices of the Sierrans 12 Exceptional Moral Behavior 13 Strength of Character and Moral Agency and 14 Toward Promoting Moral Action in Young Adulthood The following are appended 1 Moral Action Interview 2 Moral Behavior Interview and 3 The Moral Influence Interview Content and author indexes are included Individual chapters contain references

Beyond Adolescence Richard Jessor,John Edward Donovan,Frances Marie Costa,1994-07-29 Beyond Adolescence traces the lives of adolescents and youth from the late 1960s into the late seventies and early eighties It is unusual because of the period of time in which the study took place as well as because of the portion of the lifespan it covers early adulthood Concerned with understanding the role of problem behaviour in young adulthood and the factors that influence it the study also traces outcomes on young adulthood of earlier involvements in problem behaviour

with an emphasis on personality and social environment The research extends and tests the theoretical framework that guided the study Problem Behaviour Theory and shows its usefulness for understanding young adult problem behaviour and development

Contemporary Adulthood Jeffrey S. Turner,Donald B. Helms,1986 **Nursing Process and Practice in the Community** Joan M. Weinstock,1986-09-05 This volume contains an expansion of the material dealt with in the first edition plus extensive updating that incorporates significant recent research It presents an integrative view of the field of adult development as well as an orientation to research and practice for interested professionals The material is organized around a topical approach that deals with processes within several major areas of human functioning The book is for advanced undergraduates as it requires some sophistication on the part of the reader An excellent addition to academic libraries it can serve as a valuable reference and source book Choice The book is a distinctive contribution to the array of texts on adult development Whitbourne s second edition is a very useful and unique addition to the existing textbooks in the field It could well serve as a text for advanced courses on adult development particularly with a psychosocial orientation Contemporary Psychology
