Theater Of Recollection:

A Theater of Recollection John Robert Stomberg, John Walker, Boston University. Art Gallery, 1997 New York artist John Walker's latest paintings assault the viewer with breath taking impact on visceral intellectual and poetic planes The paintings engage history biography and poetry in a complex dialogue with World War I Walker wrestles with the war's horror its enormous and bloody casualties and its continuing public memory in a series of 15 works that directly address specific battles This is also a personal history for Walker he lost 11 uncles in one day in 1916 and he remembers accounts of his father's experiences in the infantry The paintings simultaneously engage in a more universal dialogue with the inclusion of lines from two of Great Britain's most haunting poets of World War I Wilfred Owen and David Jones There lines are obsessively painted across the canvasses burning into memory in paint as well as words *A theater of recollection* John R.

Stomberg, 1997 *The Theatre of Recollection* Nina Witoszek, 1988 *Shakespeare's Memory Theatre* Lina Perkins Wilder, 2010-11-04 Wilder examines the excessive remembering of figures such as Romeo Falstaff and Hamlet as a way of defining Shakespeare's theatricality **Recollection of Leonard** i.e. Léonard Alexis Autie Léonard (called), 1909

Thinking Through Place on the Early Modern English Stage Andrew Bozio, 2020-02-06 *Thinking Through Place on the Early Modern English Stage* argues that environment and embodied thought continually shaped one another in the performance of early modern English drama It demonstrates this first by establishing how characters think through their surroundings not only how they orient themselves within unfamiliar or otherwise strange locations but also how their environs function as the scaffolding for perception memory and other forms of embodied thought It then contends that these moments of thinking through place theorise and thematise the work that playgoers undertook in reimagining the stage as the setting of the dramatic fiction By tracing the relationship between these two registers of thought in such plays as *The Malcontent* *Dido Queen of Carthage* *Tamburlaine* *King Lear* *The Knight of the Burning Pestle* and *Bartholomew Fair* this book shows that drama makes visible the often invisible means by which embodied subjects acquire a sense of their surroundings It also reveals how in doing so theatre altered the way that playgoers perceived experienced and imagined place in early modern England **The Theatre** Bernard Capes, Clement Scott, Addison Bright, Charles Eglinton, 1895 Vol for 1888 includes dramatic directory for Feb Dec vol for 1889 includes dramatic directory for Jan May [Shakespeare's Props](#) Sophie Duncan, 2019-01-30 Cognitive approaches to drama have enriched our understanding of Early Modern playtexts acting and spectatorship This monograph is the first full length study of Shakespeare's props and their cognitive impact Shakespeare's most iconic props have become transhistorical transnational metonyms for their plays a strawberry spotted handkerchief instantly recalls Othello a skull Hamlet One reason for stage properties neglect by cognitive theorists may be the longstanding tendency to conceptualise props as detachable body parts instead this monograph argues for props as detachable parts of the mind Through props Shakespeare's characters offload reveal and intervene in each other's cognition

illuminating and extending their affect Shakespeare's props are neither static icons nor substitutes for the body but volatile malleable and dangerously exposed extensions of his characters' minds Recognising them as such offers new readings of the plays from the way memory becomes a weapon in Hamlet's Elsinore to the pleasures and perils of Early Modern gift culture in Othello The monograph illuminates Shakespeare's exploration of extended cognition recollection and remembrance at a time when the growth of printing was forcing Renaissance culture to rethink the relationship between memory and the object Readings in Shakespearean stage history reveal how props both carry audience affect and reveal cultural priorities some accrue cultural memories while others decay and are forgotten as detritus of the stage
