The Internal Foe Jeremy Frederick Worthen, 2009 The relationship between Christianity and other religions is a vital issue in the world today This book provides a fresh perspective by exploring how Christian theology has been shaped over two millennia by interaction with its original religious oether continuing Judaism It begins by describing the origins of the oeclassic framework in Christianity that correlates claims about the gospel with judgments about Judaism as resistance to the new thing God has done in Jesus Christ This framework binds Christianity to the task of interpreting Jewish presence which then renders engaging with Judaism as well as rehearsing judgments about it integral to Christian theology TM's development The central chapters of the book demonstrate this in relation to three pivotal periods of Western history 1050 1300 CE early modernity and the first half of the twentieth century They reveal the classic framework to have been remarkably resilient despite sometimes radical adaptation before in and after modernity The insights of Franz Rosenzweig about Judaism as Christianity TM's oeinternal foe resonate deeply with the book TM's historical analysis Does this mean that

non relativistic Christian theology must remain intrinsically anti Jewish The book concludes that it need not if it can renounce its historic stance of hermeneutical comprehension ADRIS Newsletter ,1988 **Elenchus of Biblica** ,1990 **Bulletin of Dr. Williams's Library** Dr. Williams's Library,1988
