This British cultural studies course is intended for students at an intermediate to upper intermediate level in upper secondary or university level education. The 10 units explore the variety and realities of lifestyles in contemporary British society through a range of broad topics such as cultural diversity, sport, food, and holidays and leisure. The book's comparative cross-cultural approach allows students to take the familiar as a departure point before moving into the less familiar. The wealth of authentic texts from different genres and recordings of unscripted interviews encourage a creative response and involvement throughout. This approach allows students to build up a personal picture and understanding of modern Britain. The Teacher's Book contains background information for each unit, clear teaching notes, tapescripts, answers, and optional activity suggestions.
