Theology A Very Short Introduction:

Theology: A Very Short Introduction David Ford, 2013-10-24 This Very Short Introduction provides both the believer and non believer with a balanced survey of the central questions of theology David Ford's approach draws us in to considering the principles underlying religious belief including the centrality of salvation to most major religions the concept of God in ancient modern and postmodern contexts the challenge posed to theology by prayer and worship and the issue of sin and evil He also probes the nature of experience knowledge and wisdom in theology and discusses what is involved in interpreting theological texts In this new edition Ford considers the contemporary relevance of theology including the effect of globalization and digitized communication examines the theological responses to change and development in science considers the impact of increased engagement between Islam and the West and looks at the development and importance of theology between the different faiths ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Religion Thomas A. Tweed, 2020 Religion plays a central role in human experience Billions of people around the world practice a faith and act in accordance with it Religion shapes how they enter the world and how they leave it how they eat dress marry and raise their children It affects law economy and government It sanctifies injustice and combats it Beginning with the first signs of religion among ancient humans and concluding with a look at modern citizens and contemporary trends leading scholar Thomas Tweed examines this powerful and enduring force in human society Religion A Very Short Introduction offers a concise non partisan overview of religion's long history and its complicated role in the world today

Postliberal Theology: A Guide for the Perplexed Ronald T. Michener, 2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity The movement initially began in the 1980s with its association to Yale Divinity School Theologians such as Hans Frei Paul Holmer David Kelsey and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth Clifford Geertz and Ludwig Wittgenstein Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated Michener provide the reader with an accessible introductory overview of the origins current thought potential problems and future possibilities of postliberal theology The basic philosophical and theological background are be briefly discussed along with the seminal and predominant theologians identified with the movement Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda

Liberation Theology Philip Kennedy, 2017 In this Very Short Introduction Philip Kennedy

explains what liberation theology is and how it emerged historically He looks at the types and methods of liberation theology and considers the ideas of some of its practitioners the criticisms levelled against it and assessments of its viability today Kennedy also discusses how the multifaceted nature of poverty can involve much more than economic deprivation arguing that people can suffer from poverty on account of their race sex gender culture religion ethnicity or age Such people live in poverty in the sense that they can be socially ostracized or bullied on account of their skin colour or nationality Tracing the beginnings of liberation theology in South America Kennedy analyses the different forms it takes in other countries around the globe As he shows it is now possible to speak of Black Asian African Hispanic Feminist Latino Latina Jewish Womanist Muslim Political Hindu Queer LGBT and Disability liberation theologies *Philosophy of Religion* Tim Bayne,2018-02-13

What is the philosophy of religion How can we distinguish it from theology on the one hand and the psychology sociology of religious belief on the other What does it mean to describe God as eternal And should religious people want there to be good arguments for the existence of God or is religious belief only authentic in the absence of these good arguments In this Very Short Introduction Tim Bayne introduces the field of philosophy of religion and engages with some of the most burning questions that philosophers discuss Considering how religion should be defined and whether we even need to be able to define it in order to engage in the philosophy of religion he goes on to discuss whether the existence of God matters Exploring the problem of evil Bayne also debates the connection between faith and reason and the related question of what role reason should play in religious contexts Shedding light on the relationship between science and religion Bayne finishes by considering the topics of reincarnation and the afterlife ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *God: A Very Short Introduction* John Bowker,2014-09-25

Who or what is God How do different religions interpret God s existence How can we know God Many people believe in God not just throughout history but also in the present day But who or what is it they believe in Many different and sometimes conflicting answers have been suggested to this question This Very Short Introduction explores some of the answers provided by philosophers poets and theologians and considers why some people believe in God and others do not John Bowker explores how the major religions established their own distinctive beliefs about God and how they interpret God s existence and concludes by looking at how our understanding of God continues to evolve ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [The New Testament: A Very Short Introduction](#) Luke Timothy Johnson,2010-03-01 As ancient literature and a cornerstone of the Christian faith the New Testament has

exerted a powerful religious and cultural impact But how much do we really know about its origins Who were the people who actually wrote the sacred texts that became part of the Christian Bible The New Testament A Very Short Introduction authoritatively addresses these questions offering a fresh perspective on the underpinnings of this profoundly influential collection of writings In this concise engaging book noted New Testament scholar Luke Timothy Johnson takes readers on a journey back to the time of the early Roman Empire when the New Testament was written in ordinary Greek koine by the first Christians The author explains how the Gospels Acts of the Apostles and Revelation evolved into the canon of sacred writings for the Christian religion and how they reflect a reinterpretation of the symbolic world and societal forces of first century Greco Roman and Jewish life Equally important readers will find both a positive and critical reading of the New Testament one that looks beyond its theological orientation to reveal an often surprising diversity of viewpoints This one of a kind introduction engages four distinct dimensions of the earliest Christian writings anthropological historical religious and literary to provide readers with a broad conceptual and factual framework In addition the book takes an in depth look at compositions that have proven to be particularly relevant over the centuries including Paul s letters to the Corinthians and Romans and the Gospels of John Mark Matthew and Luke Ideal for general readers and students alike this fascinating resource characterizes the writing of the New Testament not as an unknowable abstraction or the product of divine intervention but as an act of human creativity by people whose real experiences convictions and narratives shaped modern Christianity

Practice What You Preach, Preach What You Practice Ronald Barnes,2016-11-30 What does it mean to be religious Religious ethical morality is not just a Sunday set aside or a social protocol to conform to peer group expectations nor should religion be used as a refuge of forgiveness for negative actions that do not change It is important to respect the religion of others even if you do not agree with their teachings However without a basic knowledge of other religions there is no basis for evaluation other than hear say and ignorance which are not rational foundations for evaluation Because the voice of women is diminished by men who devalue the contribution of women or men who attempt to dictate and define what should be the womans role and contribution As a result the world lacks the moral input of women who are considered the moral exemplar for humanity even by many male religious leaders

Christianity: A Very Short Introduction Linda Woodhead,2004-11-25 At a time when Christianity is flourishing in the Southern hemisphere but declining in much of the West this Very Short Introduction offers an important new overview of the world s largest religion Exploring the cultural and institutional dimensions of Christianity and tracing its course over two millennia this book provides a fresh lively and candid portrait of its past and present Addressing topics that other studies neglect including the competition for power between different forms of Christianity the churches uses of power and their struggles with modernity Linda Woodhead concludes by showing the ways in which those who previously had the least power in Christianity women and non Europeans have become increasingly central to its unfolding story

ABOUT THE SERIES The Very Short

Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Heythrop Journal** ,2001 A select book list appears quarterly **Jesus** Richard Bauckham,2011-07-28 Two billion people today identify as Christians with the implication that Jesus is the focus of their relationship with God and their way of living in the world Such followers of Jesus are now more numerous and make up a greater proportion of the world s population than ever before Despite its decline in the West Christianity is rapidly increasing in areas such as Africa and China Richard Bauckham explores the historical figure of Jesus evaluating the sources and concluding that they provide us with good historical evidence for his life and teaching In order to place Jesus in his proper historical context as a Jew from Galilee in the early first century of our era Bauckham looks at Jewish religion and society in the land of Israel under Roman rule He explores Jesus symbolic practices as well as his teachings looks at his public career and emphasises how his actions such as healing and his association with notorious sinners were just as important as his words Bauckham shows that Jesus was devoted to the God of Israel with a special focus on God s fatherly love and compassion and like every Jewish teacher he expounded the Torah but did so in his own distinctive way With a discussion about the way Jesus understood himself and what finally led to his death as a criminal on a Roman cross he concludes by considering the significance Jesus has come to have for Christian faith worldwide

ABOUT THE SERIES

The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Augustine Henry Chadwick,2001-02-22 By his writings the surviving bulk of which exceeds that of any other ancient author Augustine came to influence not only his contemporaries but also the West since his time This Very Short Introduction traces the development of Augustine s thought discussing his reaction to the thinkers before him and themes such as freedom creation and the trinity

ABOUT THE SERIES

The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable The Art of Theology Stephan van Erp,2004 Art and theology are two different ways of making meaning Art is a matter of inspiration and intuition It needs neither standards nor guidelines It does not follow predictable patterns nor is it determined by any specific goal Theology is similar in that it generates meaning in order to understand and communicate faith It explores the continuities and discontinuities between divine and human creations through metaphors images and the play of ideas Unlike art however theology is primarily a matter of reason It follows patterns of consistency and coherence and is shaped by the will to clarify and explain Can art offer a way of understanding the nature of theology

despite these differences The twentieth century Swiss theologian Hans Urs von Balthasar 1905 1988 wrote a seven volume masterpiece on theological aesthetics He restructured theology around basic aesthetic concepts like form and beauty The present study offers a critical analysis of Balthasar s work against the background of contemporary debates on theological foundations The author approaches this task through a careful rereading of two of Balthasar s key sources Nicholas of Cusa and Friedrich Wilhelm Joseph Schelling In this way the author rediscovers hidden undercurrents in modernity from Renaissance aesthetics to German Idealism The result is a theological aesthetics rooted in tradition and capable of understanding and communicating faith in the face of present day challenges

Theology and Religious Studies in Higher Education D.L. Bird, Simon G. Smith, 2009-03-22 A collection of essays by some of today s leading academics on the sometimes contentious relationship between religious studies and theology

Religion in America Timothy Beal, 2008-07-29 It s hard to think of a single aspect of American culture past or present in which religion has not played a major role The roles religion plays moreover become more bewilderingly complex and diverse every day For all those who want whether out of curiosity necessity or civic duty a vivid picture and fuller understanding of the current reality of religion in America this Very Short Introduction is the go to book they need Timothy Beal describes many aspects of religion in contemporary America that are typically ignored in other books on the subject including religion in popular culture and counter cultural groups the growing phenomenon of hybrid religious identities both individual and collective the expanding numbers of new religious movements or NRMs in America and interesting examples of outsider religion such as Paradise Gardens in Georgia and the People Love People House of God in Ohio He also offers an engaging overview of the history of religion in America from Native American traditions to the present day Beal sees three major forces shaping the present and future of religion in America first unprecedented religious diversity which will continue to grow in the decades to come second the information revolution and the emergence of a new network society and third the rise of consumer culture Taken together these forces offer the potential to create a new American pluralism that would enrich society in unimaginable ways but they also threaten the great ideal of e pluribus unum With visual aids that help readers navigate America s diverse religious landscape this informative thoughtful and provocative book is a must read in the emerging public conversation concerning religion in America About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life s most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

The Journal of Ecclesiastical History Clifford William Dugmore, 2000 **The Dostoevsky Journal**, 2000 *Catholicism: A Very Short Introduction* Gerald O'Collins, 2017-05-18 Despite a long history of external threats and internal strife the Roman Catholic Church remains a vast and influential presence in our modern world But what were its origins and how has it changed and adapted over the centuries After Pope Benedict XVI dramatically resigned in early 2013 the first Pope to resign

since the fifteenth century and Pope Francis was elected many wondered what direction he would lead the Church in and whether the Church could modernise in the face of the demands of our world In this Very Short Introduction Gerald O Collins covers the history of the Catholic Church and considers some of the key issues facing Catholicism today such as the catastrophic revelations about clerical child abuse the impact of the growth of Islam and the destruction in the Middle East of ancient Christian church communities He also shows how Catholics are being increasingly challenged by an opposition between their traditional Christian values and rights which are endorsed by the secular world such as the right to physician assisted suicide or same sex marriage and considers the future for the largest and oldest institution in the world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Fundamentalism and Pluralism in the Church Dennis T. Gonzalez, 2004 **Theology Brewed in an African Pot** A. E. Orobator, 2008 An intriguing introduction to Christian doctrine from an African perspective Using a framework of excerpts from Chinua Achebe's well known novel Things Fall Apart the author introduces the major themes of Christian doctrine God Trinity creation grace and sin Jesus Christ church Mary the saints inculturation and spirituality While explaining basic Christian beliefs Theology Brewed in an African Pot also clarifies the differences between an African view of religion and a more Eurocentric understanding of religion Very accessible and engaging each of the eleven short chapters ends with three discussion questions followed by one or two African prayers

Eventually, you will extremely discover a extra experience and attainment by spending more cash. nevertheless when? accomplish you say you will that you require to get those all needs next having significantly cash? Why dont you try to acquire something basic in the beginning? Theology A Very Short Introduction Introduction

In the digital age, access to information has become easier than ever before. The ability to download Theology A Very Short Introduction has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Theology A Very Short Introduction has opened up a world of possibilities. Downloading Theology A Very Short Introduction provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Theology A Very Short Introduction has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Theology A Very Short Introduction. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Theology A Very Short Introduction. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Theology A Very Short Introduction, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Theology A Very Short Introduction has transformed the way we access information. With the convenience, cost-

effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Theology A Very Short Introduction Books

1. Where can I buy Theology A Very Short Introduction books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
