Theoretical Analyses In Romance Linguistics:

Theoretical Analyses in Romance Linguistics Christiane Laeuffer, Terrell A. Morgan, 1991-01-01 This nineteenth edition of LSRL proceedings contains a selection of papers on variety of Romance idioms and includes current topics in established areas of study The phonology papers focus mostly on syllabic and higher level prosodic structure The morphology section deals primarily with compounding The syntax contributions principally treat infinitival clauses extraction phenomena and binding While synchronic data serve as the point of departure in most of the studies historical perspectives are also considered in each major section Included in the volume are two invited contributions by Violeta Demonte on linking and case with prepositional verbs and Shana Poplack on variation in the form and function of the subjunctive in Canadian French

Theoretical Analyses on Romance Languages José Lema, Esthela Treviño, 1998-07-15 From the papers presented at the 26th LSRL this volume offers a selection of a contributions on phonological issues and on syntax Most of the grammatical phenomena discussed are treated within the frameworks of the Minimalist Program Distributed Morphology or Optimality Theory It was apparent from the diversity of the papers delivered that these approaches are exposing novel phenomena which enrich and widen our knowledge and understanding of language The analyses undertaken in these articles range over a variety of dialects of Romance languages

Theoretical Analyses in Romance Linguistics Christiane Laeuffer, Terrell A. Morgan, 1992

New Analyses in Romance Linguistics Dieter Wanner, Douglas A. Kibbee, 1991-03-15 The twenty papers from the eighteenth Linguistic Symposium on Romance Languages deal with diverse aspects of the Romance languages and Romance linguistics They reflect the current state of Romance studies in North America and of the particular outlook among the international group of contributors and participants to LSRL 18 The thriving research front accords central importance to formal questions of synchronic analysis The group of seven historical and typological papers amounts to a strong alternative Several papers treat the group of Romance languages not only as a well defined almost exclusive research province but move from Romance phenomena outward to other language types even to genuinely universal dimensions Other contributions maintain a more circumscribed outlook exploiting the typological closeness of the Romance idioms for improved analyses Three invited contributions by Georg Bossong Yves Charles Morin and Maria Luisa Rivero on typological phonological and syntactic questions set the tone for the volume

Theoretical and Experimental Approaches to Romance Linguistics Randall Scott Gess, Edward J. Rubin, 2005-01-01

The 20 papers in this volume are a selection from those presented at the 34th LSRL held in Salt Lake City in 2004 The papers deal with a wide range of theoretical issues in Romance Linguistics and include several from the conference parasession which focused on experimental approaches to problems in Romance Linguistics The book will be of interest to anyone interested in current issues in theoretical Romance Linguistics

Contributions of Romance Languages to Current Linguistic Theory Deborah L. Arteaga, 2019-03-18 This volume presents novel analyses of morphosyntax and phonology by well known scholars in their respective fields The book offers chapters on a range of

Romance languages and dialects including Canadian French Standard French Modern French Sardinian Sicilian and Spanish Other chapters focus on diachronic topics on French and Italian The volume will be of interest to researchers looking for current research in linguistics on the Romance languages It will also serve as a reference volume or supplemental reading for graduate students and advanced undergraduate students in linguistics

Issues and Theory in Romance Linguistics Michael Lee Mazzola,1994 Selected Papers from the Linguistic Symposium on Romance Languages XXIII

New Perspectives on Romance Linguistics Chiyo Nishida,Jean-Pierre Y. Montreuil,2006-08-31 This is the first of two volumes emanating from the Linguistic Symposium on Romance Languages held at the University of Texas at Austin in February 2005 It features the keynote address delivered by Denis Bouchard on exaptation and linguistic explanation as well as seventeen contributions by emerging and internationally recognized scholars of Spanish French Italian as well as Rumanian While the emphasis bears on formal analyses the coverage is remarkably broad as topics range from morphology syntax semantics pragmatics and language acquisition Each article seeks to represent a new perspective on these topics and a variety of frameworks and concepts are exploited distributive morphology entailment theory grammaticalization information structure left periphery polarity lattice spatial individuation thematic hierarchy etc This volume will challenge anyone interested in current issues in theoretical Romance Linguistics

Romance Linguistics 2006 José Camacho,Nydia Flores-Ferrán,Liliana Sánchez,Viviane Déprez,María José Cabrera,2007-11-21 This volume presents selected papers from the 36th LSRL conference held at Rutgers University in 2006 It contains twenty two articles of current approaches to the study of Romance linguistics Well known researchers present their findings in areas such as of syntax and semantics phonology psycholinguistics sociolinguistics The volume contains scholarly research in areas such as parenthetical null topic construction expletives number and language change performative verbs in colonial court Spanish aspect shift palatilization in Romanian melodic contours in Majorcan Catalan variation in verb type and position and deviance in early child bilingualism among many others It is a well rounded selection of research topics that will enrich and widen our understanding of Romance languages

Phonological Theory and the Dialects of Italy Lori Repetti,2000-12-21 These articles provide new explorations into phonological patterns attested in the minor Romance languages dialects spoken in Italy The goal of this book is both theoretical and empirical First it aims to introduce non Italianists to the phonological structures of the Italian dialects including northern Gallo Romance dialects central and southern dialects plus a Francoproven al dialect spoken in southern Italy and a Catalan dialect spoken in Sardinia Second the collection provides readers with sophisticated analyses of complex and poorly understood and under studied phonological phenomena Over half of the articles contain data collected by the authors and most of the data have not been available in English language publications The richness of the empirical material and the sophistication of the theoretical analyses make this collection a particularly important contribution to both phonology and Romance language studies

Linguistic Theory and the Romance Languages John Charles Smith,Martin Maiden,1995-01-01 This volume

contains revised versions of papers given at a conference at the Manoir de Brion in Normandy They deal with phonology morphology syntax and semantics and cover a wide range of Romance languages including many lesser known varieties The contributors to the volume are committed to the view that Romance Linguistics is not narrowly philological but is rather General Linguistics practised with reference to particular data The point has been made many times but is worth reiterating that Latin and the Romance languages offer an unrivalled wealth of synchronic and historical documentation and provide both a stimulus and a test bed for ideas about language structure language change and language variation Many of the papers in this volume can be interpreted simultaneously as using the analytical tools of linguistic theory to illuminate the structure of individual Romance languages or of the family as a whole and as using Romance data to throw light on general problems in linguistic theory or on the structure of languages beyond Romance Specific areas covered include prosodic domains quantification agreement the prepositional accusative clitic pronouns voice and aspect *Aspects of Romance Linguistics* Claudia Parodi,1996

Grammatical Analyses in Basque and Romance Linguistics Jon Franco,Alazne Landa,Juan Martín,1999-01-01 This volume contains fifteen articles on current theoretical issues in Basque and Romance linguistics Even though Basque and Romance languages are typologically different and have different genetic origins one thousand years of coexistence have shown certain parallelisms in their respective grammars It is Mario Saltarelli that first offered a formal linguistic account of phonological and syntactic phenomena that occur in these two language groups Thus this compilation of articles in both Basque and Romance linguistics not only pays tribute to Saltarelli s work by acknowledging his formalization of this relational insight but also comprises state of the art research on languages with strong geographical and historical kinship Fifteen reviewed articles written by sixteen top scholars in the field provide fresh analyses of long standing challenging phenomena in Romance and Basque linguistics such as geminates the evolution of Basque plosives clitic doubling clitic clustering directionality of clitization the role of agreement focus the interaction of voice and aspect unaccusativity semantic interpretation and syntactic structure of Determiner Phrases obviation control and anaphoric and pronominal binding This variety of topics however is unified by limiting the contributions to the four major formal areas of linguistics and to one single framework Generative Grammar although in some of its many incarnations such as Minimalism Optimality Theory and Relational Grammar All this along with the number of languages covered by the authors Aragonese Basque Catalan French Galician Gascon Italian and many of its dialects Ligurian Piedmontese Tuscan Classical and Late Latin Occitan Brazilian and European Portuguese Romanian Old and Modern Spanish among others makes the book of great value to any linguist working in Romance or Basque linguistics

Comparative Romance Linguistics Newsletter ,2003

New Analyses in Romance Linguistics Dieter Wanner,Douglas A. Kibbee,1991

Romance Languages and Linguistic Theory 2018 Sergio Baauw, Frank Drijkoningen,Luisa Meroni,2021-12-15 This volume contains a peer reviewed selection of invited contributions papers and posters that were presented at the 2018 venue of Going

Romance XXXII in Utrecht a four day program that included two thematic workshops The papers all discuss data and formalized analyses of one or more Romance languages or dialects in either synchronic or diachronic perspective and pay particular attention to the variation and the actual variability that is at stake not only in syntax and morpho syntax but also in semantics and phonology Beyond the discussion of differences between languages and or dialects from a formalist perspective the volume also contains a number of papers linking the theme of variation to sociolinguistic issues such as natural bilingualism and micro contact

Cognition and Representation in Linguistic Theory Antoine Culioli, 1995 The objective of this book is to better acquaint English speaking linguistics with a corpus of texts hitherto untranslated containing the cognitive based research in formal linguistics of one of the most important theoreticians in the field Antoine Culioli b 1924 Culioli s viewpoint is grounded in Emile Benveniste s 1902 1976 revolutionary answer to Saussure s opposition between competence langue and performance parole captured in the idea of nonciation in which the relationship between an individual and a language is one of appropriation The translation has been prepared to provide the reader with as obstacle free a path as one can clear to a theory that requires and indeed commands a very close attentive reading As an additional aid to understand Culioli s argument footnotes throughout the work show similarities and differences with the work of the cognitive linguist Ronald W Langacker

Romance Languages and Linguistic Theory 11 Silvia Perpiñán, David Heap, Itziri Moreno-Villamar, Adriana Soto-Corominas, 2017-10-15 This collection brings together current research on a range of phenomena in French Spanish Occitan and Italian that will be of interest to scholars and students of Romance and general linguistics The volume includes 12 peer reviewed articles first presented at the 44th Linguistic Symposium on Romance Languages LSRL divided into three sections on syntax semantics morphosyntax and bilingualism and language acquisition

Romance Linguistics Ana Teresa Pérez Leroux, Yves Roberge, 2003 This volume contains a selection of refereed and revised papers originally presented at the 32nd Linguistics Symposium on Romance Languages dealing with linguistic theory as applied to the Romance languages and on empirical studies on the acquisition of Romance with studies on Romanian French Spanish Portuguese Italian Romansch and Latin The theoretical section contains contributions concentrating on specific properties of Romance at the syntax semantics interface on morphosyntactic issues on subject licensing and case and on phonology The acquisition section includes contributions on first bilingual and second language acquisition of functional structure word structure quantification and stress
