Things in Byzantium Liz James,2024-08-01 This volume consists of 15 articles published between 1991 and 2018 It falls into three sections reflecting different areas of Liz James s interests The first section deals with light and colour and mosaics four articles considering light and colour in mosaics and the making of mosaics as well as the question of what it means to define mosaics as Byzantine are reprinted The second brings together four pieces on empresses their relationships with female personifications and the Mother of God their roles in founding and refounding buildings and their employment as ciphers by some authors Finally seven papers cover a range of topics what monumental images of saints in churches might have been for what the differences between relics and icons might have been how captions to images can be misleading why touch was an important sense how words can sometimes just be decorative rather than for reading why the materiality of objects makes a difference There is also a brief section of additional notes and comments which add to update and reflect on each piece now in 2024 Mosaics Empresses and Other Things in Byzantium will be of interest to scholars and students alike interested in material culture the depiction of regal women and the use of relics and icons in the Byzantine Empire

Byzantine Rome and the Greek Popes Andrew J. Ekonomou,2007-01-26 Byzantine Rome and the Greek Popes examines the scope and extent to which the East influenced Rome and the Papacy following the Justinian Reconquest of Italy in the middle of the sixth century through the pontificate of Zacharias and the collapse of the exarchate of Ravenna in 752 A combination of factors resulted in the arrival of significant numbers of easterners in Rome and those immigrants had brought with them a number of eastern customs and practices previously unknown in the city Greek influence became apparent in art religious ceremonial and liturgics sacred music the rhetoric of doctrinal debate the growth of eastern monastic communities

and charitable institutions and the proliferation of the cults of eastern saints and ecclesiastical feast days and in particular devotion to the Theotokos or Mother of God From the late seventh to the middle of the eighth century eleven of the thirteen Roman pontiffs were the sons of families of eastern provenance While conceding that over the course of the seventh century Rome indeed experienced the impact of an important Greek element some scholars of the period have insisted that the degree to which Rome and the Papacy were orientalized has been exaggerated while others argue that the extent of their byzantinization has not been fully appreciated The question has also been raised as to whether Rome's oriental popes were responsible for sowing the seeds of separatism from Byzantium and laying the foundation for a future papal state or whether they were loyal imperial subjects ever steadfast politically although not always so in matters of the faith to the reigning sovereign in Constantinople Finally there is the important issue of whether one could still speak of a single and undivided imperium Roman christianum in the seventh and early eighth centuries or whether the concept of imperial unity in the epoch following Gregory the Great was a quaint and fanciful fiction as East and West ignoring and misunderstanding one another

Holy Bishops in Late Antiquity Claudia Rapp, 2013-05-01 Between 300 and 600 Christianity experienced a momentous change from persecuted cult to state religion One of the consequences of this shift was the evolution of the role of the bishop as the highest Church official in his city from model Christian to model citizen Claudia Rapp's exceptionally learned innovative and groundbreaking work traces this transition with a twofold aim to deemphasize the reign of the emperor Constantine which has traditionally been regarded as a watershed in the development of the Church as an institution and to bring to the fore the continued importance of the religious underpinnings of the bishop's role as civic leader Rapp rejects Max Weber's categories of charismatic versus institutional authority that have traditionally been used to distinguish the nature of episcopal authority from that of the ascetic and holy man Instead she proposes a model of spiritual authority ascetic authority and pragmatic authority in which a bishop's visible asceticism is taken as evidence of his spiritual powers and at the same time provides the justification for his public role In clear and graceful prose Rapp provides a wholly fresh analysis of the changing dynamics of social mobility as played out in episcopal appointments

Saints and Their Cults Stephen Wilson, 1985 This is a paperback edition of a collection of ten papers by different authors on the cult of saints first published in hard covers in 1983 Six have been translated from French including a pioneering study by Robert Hertz one of Durkheim's most eminent pupils The editor provides a wide ranging general and historical introduction and a 100 page annotated bibliography covering material on the subject in all disciplines and in four main languages

One Firm Anchor RWH Miller, 2012-10-25 One Firm Anchor uncovers nineteen centuries of contact between the churches and the seafarer This extensive introductory history goes beyond anything previously written on the subject in scope and detail Until now much has been written of the sea but little about the relationship of the seafarer to Christianity R W H Miller adeptly sets out the origins of seafaring mission in the Early Church and the medieval era The early modern period is also considered leading to a

detailed exploration of the developments in the nineteenth century that saw the foundation of The Missions to Seamen the British Sailors Society the Apostleship of the Sea and the Mission to Deep Sea Fishermen Particular attention is given to the work of the Catholic Church during the nineteenth and twentieth centuries These developments are set against the backdrop of the economic technical and cultural developments of each period and society Miller reveals the role of key figures such as G C Smith John Ashley Francis Goldie SJ and Peter Anson whose determination and vision instigated real change One Firm Anchor is both a triumph of scholarship and a lively narrative of heroic ministry and occasionally erring clergy and will appeal to historian academic and student alike *Exegesis and Spiritual Pedagogy in Maximus the Confessor* Paul M. Blowers,1991 Through a study of his second largest work explores the role of Maximus 580 662 as an important philosopher theologian in the Byzantine monastic tradition and how that is related to his role as teacher and spiritual advisor Excerpts of the Thalassius Annotation copyrighted by Book News Inc Portland OR **Pictures by the Old Masters in the Library of Christ Church, Oxford** Christ Church (University of Oxford).
