I. Lenin,2024-01-30 Lenin s most important and controversial theoretical text Lenin s booklet *The State and Revolution* struck the world of Marxist theory like a lightning bolt Written in the months running up to the October Revolution of 1917 Lenin turned the traditional socialist concept of the state on its head arguing for the need to smash the organs of the bourgeois state to create a semi state of soviets or workers councils in which ordinary people would take on the functions of the state machine in a new and radically democratic manner This new edition includes a substantial introduction by renowned theorist Antonio Negri who argues for the continued relevance of these ideas

Collected Works, Volume 3 V. I. Lenin,2019-02-26 Re launch of the *Collected Works* of the legendary revolutionary in paperback Among the most influential political and social forces of the twentieth century modern communism rests firmly on philosophical political and economic underpinnings developed by Vladimir Ilyich Ulyanov later known as Lenin For anyone who seeks to understand capitalism the Russian Revolution and the role of communism in the tumultuous political and social movements that have shaped the modern world the works of Lenin offer unparalleled insight and understanding [Lenin's Terror](#) James Ryan,2012 This book explores the development of Lenin s thinking on violence throughout his career from the last years of the Tsarist regime in Russia through to the 1920s and the New Economic Policy and provides an important assessment of the significance of ideological factors for understanding Soviet state violence as directed by the Bolshevik

leadership during its first years in power It highlights the impact of the First World War in particular its place in Bolshevik discourse as a source of legitimating Soviet state violence after 1917 and explains the evolution of Bolshevik dictatorship over the half decade during which Lenin led the revolutionary state It examines the militant nature of the Leninist worldview Lenin s conception of the revolutionary state the evolution of his understanding of dictatorship of the proletariat and his version of just war The book argues that ideology can be considered primarily important for understanding the violent and dictatorial nature of the early Soviet state at least when focused on the party elite but it is also clear that ideology cannot be understood in a contextual vacuum The oppressive nature of Tsarist rule the bloodiness of the First World War and the vulnerability of the early Soviet state as it struggled to survive against foreign and domestic opponents were of crucial significance The book sets Lenin s thinking on violence within the wider context of a violent world *V. I. Lenin* ,1970
