Penman,2019-06-12 Apocalyptic expectations played a key role in defining the horizons of life and expectation in early modern Europe Hope and Heresy investigates the problematic status of a particular kind of apocalyptic expectation that of a future felicity on earth before the Last Judgement within Lutheran confessional culture between approximately 1570 and 1630 Among Lutherans expectations of a future felicity were often considered manifestations of a heresy called chiliasm because they contravened the pessimistic apocalyptic outlook at the core of confessional identity However during the late sixteenth and early seventeenth centuries individuals raised within Lutheran confessional culture mathematicians metallurgists historians astronomers politicians and even theologians began to entertain and publicise hopes of a future earthly felicity Their hopes were countered by accusations of heresy The ensuing contestation of acceptable doctrine became a flashpoint for debate about the boundaries of confessional identity itself Based on a thorough study of largely neglected or overlooked print and manuscript sources the present study examines these debates within their intellectual social cultural and theological contexts It outlines for the first time a heretofore overlooked debate about the limits and possibilities of eschatological thought in early modernity and provides readers with a unique look at a formative time in the apocalyptic imagination of European culture *Toleration and Tolerance in Medieval European Literature* Albrecht Classen,2018-03-05 Toleration and Tolerance in Medieval European Literature aims to examine and unearth the critical investigations of toleration and tolerance presented in literary texts of the Middle Ages In contrast to previous approaches this volume identifies new methods of interpreting conventional classifications of toleration and tolerance through the emergence of multi level voices in literary religious and philosophical discourses of authorities in medieval literature Accordingly this volume identifies two separate definitions of toleration and tolerance the former as a representative of a majority group accepts a member of the minority group but still holds firmly to the believe that s he is right and the other entirely wrong and tolerance meaning that all faiths convictions and ideologies are treated equally and the majority speaker is ready to accept that potentially his her position is wrong Applying these distinct differences in the critical investigation of interaction and representation in context this book offers new insight into the tolerant attitudes portrayed in medieval literature of which regularly appealed influenced and shaped popular opinions of the period *Reformation and Early Modern Europe* David M.
