## **Value And Naturalism In Marx:**

**Value and Naturalism in Marx** Marco Lippi, 2017-11-10 When Value and Naturalism in Marx was first published in English in 1979 recent controversies in socialist economic theory had been concentrated on the tenability or untenability of Marx's labour theory of value. Marco Lippi's provocative book accepts the Sraffian correction of Marx's account of profits and prices but goes on to ask the central question why did Marx identify value with embodied labour time. The answer Lippi argues lies in a strong though little discussed naturalistic strain in Marx's thought. Through a novel analysis of the discussion of circulation costs in Volume Two of Capital he contends that Marx operated with a concept of production in general as a relationship of man to nature common to all forms of society in which labour time appears as the sole real cost. It was this general conception of production he suggests that underlay Marx's insistence that profits, interest, rent, and faux frais represent no more than a redistribution of a pre-given total, the mass of surplus value in a system in which total profit equalled total surplus value and total price total value. While Lippi rejects Marx's naturalistic identification of value with embodied labour time he claims that the account developed from it of the anarchy of the market of commodity fetishism and of the laws of motion of capitalism is in fact logically independent and retains all its empirical validity.

**Value and Naturalism in Marx** the work of one of the most outstanding younger economists in Italy reveals the classic economic theory of historical materialism in a quite new light.

**Essays on Marx's Theory of Value** Isaak Ilyich Rubin, 2025-02-20 This book is an English translation of Essays on Marx's Theory of Value first published by Isaak Illich Rubin in 1923 in the Soviet Union. Rubin's book sparked a fierce value controversy with contemporary Soviet economists during the late 1920s. As such the present translation is conceived as a variorum edition including for the first time in English all the essential supplementary materials related to this foundational work in Marx's value theory. In addition to Rubin's main work this edition includes his four most important related publications as well as ten debate articles written and published by his contemporary proponents and opponents.

The Mismeasure of Wealth Patrick Murray, 2016-09-07 The Mismeasure of Wealth: Essays on Marx and Social Form gathers Patrick Murray's essays reinterpreting Marx and Marxian theory published since his Marx's Theory of Scientific Knowledge 1988 along with a previously unpublished essay and an introduction. Murray's essays concentrate on Marx the historical materialist the investigator of historically specific social forms of wealth and labour. There is no production in general the production of wealth always involves specific social forms and purposes that matter in many ways. Marx's attention to the dynamics and far-reaching consequences of historically

specific social forms in particular those that are constitutive of the capitalist mode of production sets him off from classical political economy and traditional Marxism In probing Marx s dialectical accounts of the commodity value money surplus value wage labour and capital The Mismeasure of Wealth establishes Marx s singular relevance for critical social theory today **Marx and Non-equilibrium Economics** Alan Freeman,Guglielmo Carchedi,1996 This major book reconstructs classical Marxist explanations for many of the most important phenomena of the day including mass poverty unequal development and endemic economic crisis The authors vindicate Marx s most contentious propositions showing how the profit rate falls despite continuous technical innovation and how values are transformed into prices preserving his famous two equalities Reconstructing Marxian Economics Spencer J. Pack,1985 Research in the History of Economic Thought and Methodology Warren J. Samuels,Jeff Biddle,1994 Volume 25 C commences a series of class notes taken at Northwestern and Chicago during the period 1964 1967 The notes from courses at Northwestern are Robert Clower s course on economic theory and Frank Fetter s course on monetary institutions and policies The notes from Chicago include George Stigler s course on industrial organization Merton Miller s course on corporate finance and Daniel Orr s course on the theory of the firm Also included are Warren Samuels notes from James Earley s courses on economic theory and on money income and price given at Wisconsin during 1954 1955 and Samuels s notes from a faculty seminar on myth theology and society given by Robert T Anderson at Michigan State University in 1974 The series presents review essays multiple reviews and mini symposia on new works in this field Volumes are broad in scope The series fills a substantial gap in this field
