**Critical Legal Education as a Subversive Activity** Helen Gibbon, Ben Golder, Lucas Lixinski, Marina Nehme, Prue Vines, 2015-10-16 In an age when everyone aspires to teach critical thinking skills in the classroom what does it mean to be a subversive law teacher Who or what might a subversive law teacher seek to subvert the authority of the law the university their own authority as teachers perhaps Are law students ripe for subversion agents of or impediments to subversion Do they learn to ask critical questions Responding to the provocation in the classic book *Teaching as a Subversive Activity* by Postman and Weingartner the idea that teaching could or even should be subversive still holds true today and its premise is particularly relevant in the context of legal education We therefore draw on this classic book to discuss in the present volume the consideration of research into legal education as lifetime learning as creating meaning as transformative and as developing world changing thinking within the legal context The volume offers research into classroom experiences and theoretical and historical interrogations of what it means to teach law subversively Primarily aimed at legal educators and doctoral students in law planning careers as academics its insights speak directly to tensions in higher education more broadly

**Women's Activism, Feminism, and Social Justice** Margaret A. McLaren, 2019-08-15 A wide range of issues besieges women globally including economic exploitation sexist oppression racial ethnic and caste oppression and cultural imperialism This book builds a feminist social justice framework from practices of women's activism in India to understand and work to overcome these injustices The feminist social justice framework provides an alternative to mainstream philosophical frameworks that promote global gender justice for example universal human rights economic projects such as microfinance and cosmopolitanism McLaren demonstrates that these frameworks are bound by a commitment to individualism and an abstract sense of universalism that belies their root neo liberalism Arguing that these frameworks emphasize individualism over interdependence similarity over diversity and individual success over collective capacity McLaren draws on the work of Rabindranath Tagore to develop the concept of relational cosmopolitanism Relational cosmopolitanism prioritizes our connections while crucially acknowledging the reality of power differences Extending Iris Young's theory of political responsibility McLaren shows how Fair Trade connects to the economic solidarity movement The Self Employed Women's Association and MarketPlace India empower women through access to livelihoods as well as fostering leadership capabilities that allow them to challenge structural injustice through political and social activism Their struggles to resist economic exploitation and gender oppression through collective action show the vital importance of challenging individualist approaches to achieving gender justice The book is a rallying call for a shift in our thinking and practice towards re imagining the possibilities for justice from a relational framework from independence to interdependence

from identity to intersectionality and from interest to socio political imagination      **Valuing Diversity** Lewis Griggs,Lente-Louise Louw,1995 Learning to manage diversity in today s workplace is critical because of the productivity gains that inevitably result when individuals in a well managed heterogenous work team call upon their differing insights values and experiences to tackle tough business challenges This breakthrough book provides just such an easy to follow training map Illustrated      A Study in the Theory of Value David Wight Prall,1918      **The Power of Perception** Shawn Andrews,2017-12-18 The Power of Perception Leadership Emotional Intelligence and the Gender Divide serves as a practical guide to educate women men and organizations on the barriers that keep women from fully contributing in the workplace These include differences in leadership style and emotional intelligence gender bias and stereotypes breadwinner and caregiver responsibilities and differences in gender culture which show up every day at work and home The Power of Perception also explores significant changes in global demographic trends and how our youngest generations are impacting the workplace The Power of Perception clearly illustrates the reasons that we don t see more women leading our global businesses It has nothing to do with women s skills and competencies and everything to do with perceptions of women as leaders as workers as mothers and as wives These perceptions have a significant impact on promotion for many women Perception is reality and it s powerful The Power of Perception provides personal stories of women s journeys real world examples and is based on the author s own research as well as that of many others Every chapter includes practical easy to apply strategies summary points and reflection questions to empower women men and organizations to fully leverage talent and diversity      Gender Intelligence Barbara Annis,Keith Merron,2014-05-13 World renowned experts on gender intelligence Barbara Annis and Keith Merron suggest it s time to move beyond arguments based on politics and fairness building an economic business case for gender diversity in the workplace Despite forty years of laws quotas diversity training and legal expenses aimed toward equalizing pay opportunities and working conditions between the sexes the glass ceiling remains firmly intact For too long companies have played the numbers game attempting to tackle gender imbalance by forcing affirmative action policies and numeric standards on organizations to increase the representation of women in management Yet these efforts have rarely been sustained In this groundbreaking comprehensive analysis based on more than twenty five years of in depth surveys involving 100 000 men and women across dozens of Fortune 500 companies Barbara Annis and Keith Merron provide a deeper understanding of the multiplicity of forces that have combined to create and perpetuate gender inequality Gender Intelligence exposes common false assumptions that prevent men and women from successfully performing together at work myths exacerbated by worn out theories of gender blindness and sameness thinking It show how a small but growing number of courageous leading edge companies have broken through the barriers to successfully advance women making the remarkable transformation from compliance to choice from pressure to preference and show how it can be done in any business Gender Intelligence features 17 illustrations      Mentor for Life Natasha
