Franz Theodor Kugler

Van Der Weyden:

Van Der Weyden Lorne Campbell, Rogier van der Weyden, 1980 Rogier Van der Weyden emerged from scholarly and critical neglect only with the revival of interest in the so called Flemish Primitives during the second half of the nineteenth century The immensely forceful frequently disturbing images which Van der Weyden produced owed as much to his supreme control of paint as they did to his observation of detail which was never permitted to dominate the general rhythm and pattern of the picture itself These qualities fused to create a style with a direct impact but one which was the result of only the most subtle and painstaking calculations of color and balance Dr Campbell explores Van der Weyden s position both as official painter to the city of Brussels and within the international system of princely patronage which was evolving during his lifetime
