LAMBDA LITERARY AWARD FOR GAY FICTION Hussam and Wassim are teenage boys living in Syria during America's 2003 invasion of Iraq. When a surprise discovery results in tragedy, their lives and those of their families are shattered. Wassim promises Hussam his protection, but ten years into the future, he has failed to keep his promise. Wassim is on the streets seeking shelter from both the city and the civil war storming his country. Meanwhile, Hussam, now on the other side of the world, remains haunted by his own ghosts, doing his utmost to drown them out with every vice imaginable. Split between war-torn Damascus and unforgiving Vancouver, *The Foghorn Echoes* is a tragic love story about coping with shared traumatic experience and devastating separation. As Hussam and Wassim come to terms with the past, they begin to realise the secret that haunts them is not the only secret that formed them. *The Avro Arrow* Lawrence Miller, 2014-10-10. When it first flew in 1957, the Avro Arrow was the world's best supersonic combat aircraft. It was the proudest achievement of the engineers and designers who came out of Canada's world-leading aircraft industry. They had delivered other notable aircraft, including the world's first passenger jet, but the Arrow put them ahead of everyone else in the field. The Arrow was designed to protect Canada against the military threat posed by the Soviet Union and its long bombers loaded with nuclear weapons. It did everything it was supposed to do and more. Yet after only six airplanes were built, the Arrow was killed. It was cancelled by a Conservative government overnight, thousands lost their jobs, its builder Avro Aircraft was ruined, and with it went an important high-tech industry. Astonishingly, the government ordered the finished airplanes cut up and destroyed. Nothing was to remain, and nothing did. Using hundreds of photos, most in colour, along with original documents, this book tells this amazing story, a key development in Canada's Cold War history. It provides the information that will let readers decide for themselves what best explains a decision which even today is hard to understand. And it shows Canada's capacity in engineering and science when challenged to produce the best in the world. *Canadian Books in Print 2002* Marian Butler, 2002-02. [The Avro Arrow New Edition](#) Lawrence Miller, 2024-09-16. The Avro Arrow was one of the most innovative supersonic aircraft ever designed. This book looks at the history of its creation and the legacy of Canadian innovation that lasts to this day. The Avro Arrow was one of the most innovative supersonic aircraft ever designed, but before it could enter service, it was ordered destroyed. This book follows its creation, fanfare, and destruction. In this new revised edition, The Avro Arrow's legacy of Canadian innovation is explored by highlighting the first all-Canadian electric car, also designed and built by Avro Canada.
