

Geraldine Marshall Gutfreund

A VANISHING
ANIMAL
NEIGHBORS

The book cover features a photograph of a spotted salamander, likely a Hellbender (Cryptobranchus alleganiensis), resting on a forest floor covered with large, brown, fallen leaves. The salamander is positioned in the center, facing towards the left. Overlaid on the image is the title 'A VANISHING ANIMAL NEIGHBORS' in large, red, outlined, serif capital letters. The text is arranged in three lines: 'A VANISHING' on the top line, 'ANIMAL' in the middle, and 'NEIGHBORS' on the bottom line. The letters are slightly shadowed, giving them a three-dimensional appearance as if they are floating above the scene.

Vanishing Animal Neighbors:

Vanishing Animal Neighbors Geraldine Marshall Gutfreund, 1993-08-01 Describes the plight of such endangered animals as the salamander garter snake and monarch butterfly

Vanishing Flora, 1995 This volume represents a contemporary artist's tribute to the endangered plants and flowers of the world It is both an ecological statement and a call to arms It focuses on plant life of which an estimated 30 60 000 varieties are in imminent danger of extinction The book's format each illustration is given its own page permits the reader to see the detail of each plant's structure Captions describe the plant's history uses and status Research and information about the threats to each plant's survival amplify the strong conservation message The book provides both an appreciation of our remaining plant life as well as an explanation of the facts of a relatively unreported global situation An appendix provides more than 100 organizations to contact in the US and around the world

Our Vanishing Wild Life William Temple Hornaday, 1913 William Temple Hornaday was the Director of the New York Zoological Society and the nation's leading advocate of wildlife conservation in this era This unsparing manifesto was written to accompany Hornaday's launching of the Permanent Wildlife Protection Fund it is thus in the words of the historian Stephen Fox both a campaign tract and one of the first books wholly devoted to endangered wild animals John Muir and His Legacy The American Conservation Movement Boston Little Brown and Company 1981 p 149 It is also a landmark of conservation history which had a profound effect on the thought of Aldo Leopold among others The book surveys the history and causes of wildlife destruction in America and elsewhere and sets forth a lengthy program to ensure the protection of remaining wildlife for the future often in militant and moralistic terms The work also throws light on some of the complexities inherent in the conservation movement at this time for example Hornaday accepts the classification of certain bird and mammalian predators as noxious or vermin and appropriate for destruction pp 77 81 there is no criticism here of the massive campaign for the extermination of wolves and coyotes being sponsored at the time by the Bureau of Biological Survey On a more general level Hornaday's fulminations against Italian immigrants as incorrigible bird killers suggest a connection between nativism and conservatism while his excoriations of market hunters set forth a deeply rooted class bias shared by many leading conservationists
