Leading the Small Police Department Gerald W. Garner, 2023-02-14 Almost 90 percent of the police departments in the United States employ 25 officers or fewer Many agencies are staffed by fewer than ten peacekeepers The leaders of these small departments face some of the same challenges as do the bosses of larger departments but they encounter many additional problems as well and they labor in a somewhat different environment Much has been written to assist the CEO of the larger department Much less effort has been devoted to aiding the smaller agency chief in navigating the operational personnel and political landscape to be found in the smaller community to name but one of the challenges This book is intended to fill that knowledge gap The author is a 52 year veteran of law enforcement who has served as a successful police chief in cities of 8 000 23 000 and over 100 000 citizens The book is a compilation of real world experience and lessons learned bolstered by the observations of many other police chiefs Its goal is to assist the small agency chief in building and maintaining an exceptional police department It is additionally designed to assist the leader in enjoying a successful and rewarding career for as long as he or she chooses to be employed there This is not a book about leadership or management theory Rather it is a handbook focused upon providing practical time proven advice for handling the small department chief's daily fare of challenges and opportunities It will prove equally useful to the leader of a larger police department but the focus will remain on the small agency boss
