Hermeneutics 1867 68 based on student lecture notes and the The Rise of Hermeneutics 1900 which traces the history of

hermeneutics back to Hellenistic Greece All the addenda to this well known essay are translated here some for the first time In them Dilthey articulates three philosophical aporias concerning hermeneutics and projects an ultimate convergence between understanding and explanation Part Two provides translations of review essays by Dilthey on Buckle s use of statistical history and on Burckhardt s cultural history an essay Friedrich Schlosser and the Problem of Universal History and a talk recalling his early years as a student of Boeckh Jakob Grimm Mommsen Ranke and Ritter It also contains the important historical essay The Eighteenth Century and the Historical World in which Dilthey reexamines the Enlightenment to show its significant contributions to the rise of historical consciousness *The Formation of the Historical World in the Human Sciences* Wilhelm Dilthey,2002 This volume provides Dilthey s most mature and best formulation of his Critique of Historical Reason It begins with three Studies Toward the Foundation of the Human Sciences in which Dilthey refashions Husserlian concepts to describe the basic structures of consciousness relevant to historical understanding The volume next presents the major 1910 work The Formation of the Historical World in the Human Sciences Here Dilthey considers the degree to which carriers of history individuals cultures institutions and communities can be articulated as productive systems capable of generating value and meaning and of realizing purposes Hegel s idea of objective spirit is reconceived in a more empirical form to designate the medium of commonality in which historical beings are immersed Any universal claims about history need to be framed within the specific productive systems analyzed by the various human sciences Dilthey s drafts for the Continuation of the Formation contain extensive discussions of the categories most important for our knowledge of historical life meaning value purpose time and development He also examines the contributions of autobiography to historical understanding and of biography to scientific history The finest summary of Dilthey s views on hermeneutics can be found in The Understanding of Other Persons and Their Manifestations of Life Here Dilthey differentiates understanding relative to three kinds of manifestations of life After giving his analysis of elementary understanding he examines the role of induction in higher understanding and interpretation and the relevance of transposition and re experiencing for grasping individuality

*Wilhelm Dilthey, Pioneer of the Human Studies* Hans Peter Rickman,1979-01-01 [Pattern and Meaning in History \(RLE Social Theory\)](#) H.P. Rickman,2020-07-26 One may state Dilthey s significance in most general fashion by characterizing his work as the first thorough going and sophisticated confrontation of history with positivism and natural science Dilthey s sweep was universal he strove to reduce to order the multifarious realms of knowledge the conflicting traditions of cultural study that he had embraced Thus Dilthey laid out a program that no mortal and certainly no one whose mind had been formed in the third quarter of the nineteenth century could hope to bring to completion Yet despite its inconclusiveness Dilthey s work exerted enormous influence The distinction he had drawn between natural and cultural science became standard for historians and to a lesser extent for social scientists also After Dilthey historians no longer needed to apologize for the unscientific character of their discipline they understood why its methods could never be quite the same as those of

natural science And the contemporary tradition of intellectual history grew naturally out of Dilthey s teaching H Stuart Hughes Poetic Imagination and Insanity Wilhelm Dilthey,2023-12-14 In 1886 in a speech to a group of military physicians the prominent German philosopher Wilhelm Dilthey 1833 1911 rejected the traditional connection between artistic genius and inspired insanity Here is an English translation of this speech together with an extensive commentary by Eric v d Luft

Bulhof,2012-12-06 Philosophy originates in man's amazement over the richness and complexity of reality. It attempts to articulate in words and concepts what reality is. Starting from the recognition that this reality is experienced by all humans but experienced in many different ways, the philosopher tries to find reality's heart, its center, its hidden treasure, the tree in the middle connecting heaven and earth, the central point from which the stupendous intricacy of experience begins to make sense and from which order can become visible. To ask what is reality is indeed to recognize that we have entered a maze. The hermeneutic philosophy of Wilhelm Dilthey (1833-1911) is the fruit of his own wanderings in this maze. Like many intellectuals of his age, he had lost faith in the Christian religion in which he was raised. In his college years, he turned from theology to philosophy, in particular the history of philosophy and of human thought, in general wondering about the origin and value of the astounding variety of past belief systems. At the center of reality's maze, he found the insight that reality as faced by man is comparable to a literary text; it means something to us. Reality is not a mute object but an autonomous source of meaning; an act of self-disclosure. Knowledge of reality is therefore not the product of actions performed by an active subject upon a passive object but a communicative interaction between two subjects. *Descriptive Psychology and Historical*

*Understanding* W. Dilthey,2012-12-06 Perhaps no philosopher has so fully explored the nature and conditions of historical understanding as Wilhelm Dilthey. His work, conceived overall as a Critique of Historical Reason and developed through his well-known theory of the human studies, provides concepts and methods still fruitful for those concerned with analyzing the human condition. Despite the increasing recognition of Dilthey's contributions, relatively few of his writings have as yet appeared in English translation. It is therefore both timely and useful to have available here two works drawn from different phases in the development of his philosophy. *The Ideas Concerning a Descriptive and Analytic Psychology* (1894), now translated into English for the first time, sets forth Dilthey's programmatic and methodological viewpoints through a descriptive psychology, while *The Understanding of Other Persons and Their Expressions of Life* (ca. 1910) is representative of his later hermeneutic approach to historical understanding. **DESCRIPTIVE PSYCHOLOGY AND THE HUMAN STUDIES** Dilthey presented the first mature statement of his theory of the human studies in volume one of his *Einleitung in die Geisteswissenschaften* (Introduction to the Human Studies) published in 1883. He argued there that for the proper study of man and history we must eschew the metaphysical speculation of the absolute idealists while at the same time avoiding the scientific reduction of positivism. **The philosophy of Wilhelm Dilthey** Herbert Arthur Hodges,1974
