## **William Blake And The Body:**

*William Blake and the Body* T. Connolly, 2002-09-06 William Blake and the Body re evaluates Blake s central image the human form In Blake s designs transparent skinned bodies passionately contort in his verse metamorphic bodies burst from each other in gory gender bending births The culmination is an ideal body uniting form and freedom Connolly explores romantic era contexts like anatomical art embryology miscarriage and twentieth century theorists like those of Kristeva Douglas Girard to provide an innovative new analysis of Blake s transformations of body and identity

**Images of the Body in the Later Poetry of William Blake** Naomi Ossar, 1989 *The Mystical William Blake and the Unity of Body and Soul* Kathleen M. Bushnell, 2005 [The Awakening of Albion](#) Thomas R. Frosch, 1974 *Deformed, Dismembered, and Disembodied* Sharon Choe, 2022 *The True Faculty of Knowing* James Aaron Stanger, 1997

**Revealing Bodies** Erin Goss, 2012 *Revealing Bodies* turns to the eighteenth century to ask a question with continuing relevance what kinds of knowledge condition our understanding of our own bodies Focusing on the tension between particularity and generality that inheres in intellectual discourse about the body *Revealing Bodies* explores the disconnection between the body understood as a general form available to knowledge and the body experienced as particularly one s own Erin Goss locates this division in contemporary bodily exhibits such as Gunther von Hagens *Body Worlds* and in eighteenth century anatomical discourse Her readings of the corporeal aesthetics of Edmund Burke s *Philosophical Enquiry* William Blake s cosmological depiction of the body s origin in such works as *The First Book of Urizen* and Mary Tighe s reflection on the relation between love and the soul in *Psyche* or *The Legend of Love* demonstrate that the idea of the body that grounds knowledge in an understanding of anatomy emerges not as fact but as fiction Ultimately *Revealing Bodies* describes how thinkers in the eighteenth and nineteenth centuries and bodily exhibitions in the twentieth and twenty first call upon allegorized figurations of the body to conceal the absence of any other available means to understand that which is uniquely our own our existence as bodies in the world

**But He Talked of the Temple of Man s Body** Eliza Borkowska, 2009-01-14 Starting with Locke s philosophy of language which turns words into bricks and uses them to build a rigid system of science and morality this book is a response to Blake s un Lockian thought through an analysis of his linguistic practices It is an attempt to understand why Blake says what he says the way he does While being a study of Blake s poetics the book is at the same time a poetic study that never attempts to translate poetry into prose It reads like a narrative telling of an effort to build an attempt to destroy and then rebuild again Primarily aimed at Blake readers it will also interest those interested in Enlightenment and Romanticism as well as students of art religion or philosophy And since Blake s criticism of Locke is in fact Blake s criticism of the main assumptions of modernity the book should prove a stimulating experience to all those who do not mind looking at the reality from some critical distance

[William Blake and the Productions of Time](#) Andrew M. Cooper, 2016-12-05 *Challenging the idea that a writer s work reflects his experiences in time and place* Andrew M Cooper locates the action of William Blake s

major illuminated books in the ahistorical present an impersonal spirit realm beyond the three dimensional self Blake Cooper shows was a formalist who exploited eighteenth century scientific and philosophical research on vision sense and mind for spiritual purposes Through irony dialogism two way syntax and synesthesia Blake extended and refined the prophetic method Milton forged in Paradise Lost to bring the performativity of traditional oral song and storytelling into print Cooper argues that historicist attempts to place Blake s vision in perspective as opposed to seeing it for oneself involve a deeply self contradictory denial of his performativity as a poet artist Rather Blake s expansion of linear reading into a space of creative self conscious collaboration laid the basis for his lifelong critique of dualism in religion and science and anticipated the non Euclidean geometrics of twentieth century Modernism

**Romantic Mediations** Andrew Burkett,2016-09-21 Finalist in the 2016 Foreword INDIES Book of the Year Award in the Social Sciences category Romantic Mediations investigates the connections among British Romantic writers their texts and the history of major forms of technical media from the turn of the nineteenth century to the present Opening up the vital new subfield of Romantic media studies through interventions in both media archaeology and contemporary media theory Andrew Burkett addresses the ways that unconventional techniques and theories of storage and processing media engage with classic texts by William Blake Lord Byron John Keats Mary Wollstonecraft Shelley and others Ordered chronologically and structured by four crucial though often overlooked case studies that delve into Romanticism s role in the histories of incipient technical media systems the book focuses on different examples of the ways that imaginative literature and art of the period become taken up and transformed by while simultaneously shaping considerably new media environments and platforms of photography phonography moving images and digital media

Blake in the Nineties Steve Clark,David Worrall,2016-07-27 The 1990s have witnessed a major reassessment of Blake initiated by a new and more rigorous comprehension of his modes of production which in turn has led to re evaluation of other literary and cultural contexts for his work Blake in the Nineties grapples with the implications of the new bibliography for Blake studies in its editorial interpretative and historical dimensions As well as providing an international overview of recent Blake criticism the collection contributes to current debates in a variety of disciplines dealing with the Romantic period including art history counter Enlightenment scholarship theology and hermeneutic theory

**Sound mind in body sound: a cloud of witnesses to the golden rule of not too much. Selected by J.E.B. Mayor** John Eyton Bickersteth Mayor,1901

Reading the Social Body Catherine B. Burroughs,Jeffrey Ehrenreich,1993 The overarching argument of Reading the Social Body is that the body is cultural rather than natural Some of the essays treat the social construction of bodies that have actually existed in human history others discuss the representation of bodies in artistic contexts all recognize that everything visible to the human body from posture and costume to the width of an eyebrow or a smile is determined by and shaped in response to a particular culture

**History of Norfolk County, Massachusetts** Duane Hamilton Hurd,1884     *Blake's Drama* Diane Piccitto,2014-06-26  
Blake s Drama challenges conventional views of William Blake s multimedia work by reinterpreting it as theatrical performance Viewed in its dramatic contexts this art form is shown to provoke an active spectatorship and to depict identity as paradoxically essential and constructed revealing Blake s investments in drama action and the body     Mysticism in Blake and Wordsworth Jacomina Korteling,1928     *The Wild Body* Wyndham Lewis,1928     **The challenge of the sublime** Hélène Ibata,2018-02-05 This book examines the links between the unprecedented visual inventiveness of the Romantic period in Britain and eighteenth century theories of the sublime Edmund Burke s *Philosophical Enquiry into the Origin of our Ideas of the Sublime and Beautiful* 1757 in particular is shown to have directly or indirectly challenged visual artists to explore not just new themes but also new compositional strategies and visual media such as panoramas and book illustrations by arguing that the sublime was beyond the reach of painting More significantly it began to call into question mimetic representational models causing artists to reflect about the presentation of the unrepresentable and drawing attention to the process of artistic production itself rather than the finished artwork
