information pertinent to the role of water in foods Each meeting has served as a review of the current state of knowledge ISOPOW 6 is the first of these meetings where Ron Duckworth s presence has not been felt though he clearly attended the meeting in spirit A lively group of academics and industrial scientists assembled in Santa Rosa California to discuss the current state of the science As meeting chairperson I must acknowledge the tremendous contributions made by the organizing committee by the session chairpersons and by the central committee Without all their help nothing could have been achieved Most important to the success of the meeting however was the very active participation of all attendees In all seven sessions the papers were excellent and their discussion was very spirited
