The Darkness:

The Darkness Manifesto Johan Eklöf, 2024-02-13 How much light is too much light Satellite pictures show our planet as a brightly glowing orb and in our era of constant illumination light pollution has become a major issue The world's flora and fauna have evolved to operate in the natural cycle of day and night But in the last 150 years we have extended our day and in doing so have forced out the inhabitants of the night and disrupted the circadian rhythms necessary to sustain all living things including ourselves In this well researched and surprisingly lyrical *The New Statesman* UK book Swedish conservationist Johan Eklöf urges us to appreciate natural darkness its creatures and its unique benefits He ponders the beauties of the night sky traces the errant paths of light drunk moths and the swift dives of keen eyed owls and shows us the bioluminescent creatures of the deepest oceans As a devoted friend of the night Eklöf reveals the startling domino effect of diminishing darkness insects dumbfounded by streetlamps failing to reproduce birds blinded and bewildered by artificial lights and bats starving as they wait in vain for insects that only come out in the dark For humans light induced sleep disturbances impact our hormones and weight and can contribute to mental health problems like chronic stress and depression The streetlamps floodlights and neon signs of cities are altering entire ecosystems and scientists are only just beginning to understand their long term effects The light bulb long the symbol of progress and development needs to be turned off

The Truth Is H. W. L. Poonja, 2000-02-01 A collection of spontaneous satsangs or truths spoken from Sri H W L Poonja's experience of the highest and yet simplest truth that we are pure love and consciousness the totality of existence Reveals thousands of ways to help us inquire into who we really are to bring our awareness into the infinity of the moment and surrender to the wisdom of our Truth *The Works of the Rev. The Spirituality of Following Jesus in John's Gospel Sean Seongik Kim, 2017-10-12 Research on following Jesus has mostly been done in terms of what Jesus followers ought to do In this unprecedented study Kim presents following Jesus in John's Gospel through the perspective of what Jesus does for his followers Following Jesus is a journey towards the place where Jesus leads his followers that is to a relationship with the Father It is ultimately participating in the Son's communion with the Father Jesus who was in the bosom of the Father descended from him and ascends to him taking his followers with him so that they may be with him where he is with the Father in glory and love Kim develops this thesis by examining the term *akolouthēin* to follow and correlated motifs in John's Gospel
