Upper Canada and the War of 1812. A Collection of Writings Giving a Comprehensive Picture of the War of 1812 in Upper Canada ... Ontario Historical Society (Toronto), 1964 *Defending the Border* Mathijs Pelkmans, 2011-05-16 This book one of the first in English about everyday life in the Republic of Georgia describes how people construct identity in a rapidly changing border region Based on extensive ethnographic research it illuminates the myriad ways residents of the Caucasus have rethought who they are since the collapse of the Soviet Union Through an exploration of three towns in the southwest corner of Georgia all of which are situated close to the Turkish frontier Mathijs Pelkmans shows how social and cultural boundaries took on greater importance in the years of transition when such divisions were expected to vanish By tracing the fears longings and disillusionment that border dwellers projected on the Iron Curtain Pelkmans demonstrates how elements of culture formed along and in response to territorial divisions and how these elements became crucial in attempts to rethink the border after its physical rigidities dissolved in the 1990s The new boundary drawing activities had the effect of grounding and reinforcing Soviet constructions of identity even though they were part of the process of overcoming and dismissing the past Ultimately Pelkmans finds that the opening of the border paradoxically inspired a newfound appreciation for the previously despised Iron Curtain as something that had provided protection and was still worth defending The Defended Border Parks Canada. Defended Border Morris Zaslow, Wesley B. Turner, Ontario historical society (Toronto), 1964 **Defending English Ground** Steven G. Ellis, 2015-05-07 A key duty of the Renaissance monarchy was the defence of its subjects For the English monarchy the rule and defence from enemies beyond the long landed frontiers in Ireland and the English far north proved an intractable problem It was not however a duty which was accorded a high priority by successive Yorkist and early Tudor kings nor is it an aspect of state formation which has attracted much attention from modern historians This study assesses traditional arrangements for defending English ground the impact of the frontier on border society and the way in which the topography and patterns of settlement in border regions shaped the character of the march and border itself *Defending English Ground* focuses on two English shires Meath and Northumberland in a period during which the ruling magnates of these shires who had hitherto supervised border rule and defence were mostly unavailable to the crown Unwilling to foot the cost of large garrisons and extended fortifications successive kings increasingly shifted the costs of defence onto the local population prompting the border gentry and minor peers to organize themselves through county communities for the rule and defence of the region This strategy was generally successful in Ireland where the military threat presented by the wild Irish was not so formidable but in the English far north Tudor reform centralized control and the burden of defence against the Scots soon led to the decay of the borders *The Space Between Us* Ryan D. Enos, 2017 *The Space Between Us* brings the connection between geography psychology and politics to life By going into the neighborhoods of real cities Enos shows how our perceptions of racial ethnic and religious groups are intuitively shaped by where these groups live and interact daily Through the lens of numerous examples across the globe and drawing on a compelling combination of research techniques including field and laboratory experiments big data analysis and small scale interactions this timely book provides a new understanding of how geography shapes politics and how members of groups think about each other Enos analysis is punctuated with personal accounts from the field His rigorous research unfolds in accessible writing that will appeal to specialists and non specialists alike illuminating the profound effects of social geography on how we relate to think about and politically interact across groups in the fabric of our daily lives Jacket **Plunder, Profit, and Paroles** George Sheppard, 1994 Reviewing the claims submitted for damages attributed to the fighting he argues that British forces as well as enemy troops were responsible for widespread destruction of private property and concludes that this explains why there was little increase in anti American feeling after the war *The Annals of a Border Club (the Jedforest)* George Tancred, 1899 **Problems of the War, Papers Read Before the Society in the Years 1915-1917** Grotius Society, 1916 *Transactions v 30 44 1944 1959* include the Proceedings of the International Law Conference London [The Nineteenth Century and After](#) , 1914 *Transactions of the Grotius Society* , 1916 **Historical Atlas of Canada: The land transformed, 1800-1891** Geoffrey J. Matthews, Don Measner, 1987-01-01 Uses maps to illustrate the development of Canada from the last ice sheet to the end of the eighteenth century **Niagara, 1814** Richard V. Barbuto, 2000 Most books on the

War of 1812 focus on the burning of Washington D C the Battles of Baltimore and New Orleans and the war in the Old Northwest Scant attention however has been paid the Niagara Campaign of 1814 the American army s ambitious but failed attempt to wrest Canada from British control While a few writers have dealt with aspects of this effort Richard Barbuto is the first to offer a comprehensive study of the entire campaign Barbuto covers every aspect of a campaign that saw the American army come of age even as its military leaders blundered away potential victory and the acquisition of a coveted expanse of North American territory Vividly recreating the major battles on the Niagara peninsula at Chippawa Lundy s Lane Fort Erie and Cook s Mill Barbuto also clarifies the role of these engagements within the overall framework of American strategy Despite early success at Chippawa four long months of fighting finally ended in something like a draw with the British still in control of Canada Barbuto argues convincingly that the American government was never really able to harness coordinate and focus its tremendous resources in ways that would have allowed the campaign to succeed Much of the blame he shows can be attributed to the poor leadership and confused strategic thinking of President James Madison and his secretary of war John Armstrong The American effort was further undermined by manpower shortages a few ineffective field commanders and the army and navy s inability to coordinate their objectives and operations Even so Barbuto contends that the American soldier led by the likes of Jacob Brown and the legendary Winfield Scott performed surprisingly well against one of the great armies of the nineteenth century Barbuto s analysis unmarred by national bias presents a balanced picture of these events from the perspective of all participants American British Canadian and Native American He also fills an important gap by providing the first ever capsule histories of all regimental sized units involved in the campaign Breathing new life into these events his far ranging study should become the definitive work on this long neglected campaign [Manual of Military Law](#) Great Britain. War Office,1914 *The The Longest Boundary: How the US-Canadian Border's Line came to be where it is, 1763-1910 (Consolidated edition)* John Dunbabin,2024-04-25 A consolidated eBook of Volume one and Volume two of The Longest Boundary by John Dunbabin These volumes are firmly based on primary sources but written in a way that should appeal to the general reader as much as to specialised historians Its chief actors are politicians and administrators but there is a range of others extending from First Nations chiefs to goldminers railway entrepreneurs prophets and policemen In the concluding chapter the book s general historical approach is supplemented by assessment of the main perspectives of international relations theory Finally attention is drawn to small anomalies created by the boundary line
