Forming Ethical Identities in Early Childhood Play Brian Edmiston,2007-10-08 Through compelling examples Brian Edmiston presents the case for why and how adults should play with young children to create with them a workshop for life In a chapter on mythic play Edmiston confronts adult discomfort over children s play with pretend weapons as he encourages adults both to support children s desires to experience in imagination the limits of life and death and to travel with children on their transformational journeys into unknown territory This book provides researchers and students with a sound theoretical framework for re conceptualising significant aspects of pretend play in early childhood Its many practical illustrations make this a compelling
