The Living Age ,1926 **Arizona Highways** ,1925 Illustrated Sketches of Death Valley and Other Borax Deserts of the Pacific Coast John Randolph Spears,1892 **Equilibrium** Josué Roussel,2015-12-22 Back cover The universe is not the fruit of a series of random chaotic and blind events Rather nature is the manifestation of a work full of intelligent science and wisdom always faithful to and constant with itself In the search for the original authentic universe only the great science of alchemy founded on the principle that everything works as a whole in close unity and is all subdued to the same forces of equilibrium or disequilibrium in origin has the power to expose the multiple faces of life and death In **Equilibrium** author Josu Roussel diligently explores the basis of the principle of universal equilibrium This progressive study refines our perceptions in identifying the nature of balance and imbalance in the universe Rather than being based on an intuitive inspiration the science of alchemy exclusively provides an interpretation of the dual forces of good and evil with truth emblazoned on one side and illusion on another This science of the absolute establishes a close association between the physical world and the invisible world Nothing is random since every single phenomenon we see and feel means something Is there truth in spiritual revelation And how can we make sense of all this This innovative approach to both science and spirituality through alchemy will ultimately serve as the cornerstone of a series of works related to various themes associated with universal sciences Building the philosophers stone becomes the ultimate lever of alchemy and its breakthroughs will be demystified like never before

The Death Valley Chuck-walla ,1907 **The Living Age** ,1859 **A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church: Saint Augustin: Anti-Pelagian writings** ,1887 **The Birds of California** William Leon Dawson,1923 *Telling Silence* Charles E. Scott,2023-11-01 In *Telling Silence* Charles E Scott speaks of silence often indirectly in such ways as to create occasions in which people might become more aware of silence in their experiences of themselves and the world around them The core question of the book is how can people be aware of silence without turning it into a thing and losing it Lack of awareness of silence is lack of awareness of a major dimension of lives both human and nonhuman Attunements with silence enable attunements with being alive in the fragility that invests even the strengths of living beings *Telling Silence* performs this attunement in descriptive accounts and instances of non reflective awareness awareness that does not deliberate or ponder In twenty three fragments poems stories and ways of thinking and speaking are brought together to intensify intimations of silence telling of itself
