The Devils Mode Stories:

The devil's mode : stories Anthony Burgess,1990 **The Devil's Mode** Anthony Burgess,1989 The author s first collection of short stories The Devil's Mode Anthony Burgess,1991-10-01 The Best Novels of the Nineties Linda Parent Leshner,2000-02-15 This reader s guide provides uniquely organized and up to date information on the most important and enjoyable contemporary English language novels Offering critically substantiated reading recommendations careful cross referencing and extensive indexing this book is appropriate for both the weekend reader looking for the best new mystery and the full time graduate student hoping to survey the latest in magical realism More than 1 000 titles are included each entry citing major reviews and giving a brief description for each book *The Devil's Book of Culture* Benjamin Feinberg,2010-01-01 Since the 1950s the Sierra Mazateca of Oaxaca Mexico has drawn a strange assortment of visitors and pilgrims schoolteachers and government workers North American and European spelunkers exploring the region s vast cave system and counterculturalists from hippies John Lennon and other celebrities supposedly among them to New Age seekers all chasing a firsthand experience of transcendence and otherness through the ingestion of psychedelic mushrooms in context with a Mazatec shaman Over time this steady incursion of the outside world has significantly influenced the Mazatec sense of identity giving rise to an ongoing discourse about what it means to be us and them In this highly original ethnography Benjamin Feinberg investigates how different understandings of Mazatec identity and culture emerge through talk that circulates within and among various groups including Mazatec speaking businessmen curers peasants intellectuals anthropologists bureaucrats cavers and mushroom seeking tourists Specifically he traces how these groups express their sense of culture and identity through narratives about three nearby yet strange discursive worlds the magic world of psychedelic mushrooms and shamanic practices the underground world of caves and its associated folklore of supernatural beings and magical wealth and the world of the past or the past present relationship Feinberg s research refutes the notion of a static Mazatec identity now changed by contact with the outside world showing instead that identity forms at the intersection of multiple transnational discourses **The Encyclopedia of Fantasy** John Clute,John Grant,1999-03-15 Like its companion volume *The Encyclopedia of Science Fiction* this massive reference of 4 000 entries covers all aspects of fantasy from literature to art Anthony Burgess and America Christopher W Thurley,2025-03-25 Anthony Burgess and America is a biographical and critical analysis of Burgess s commentary on and relationship with the United States of America Utilising Burgess s entire canon and newly discovered materials to assess Burgess s views on America this book also evaluates the American inspirations in five Burgess novels This essential addition to Burgess scholarship tells the story of a nearly unexplored area of Burgess s life For the first time ever Burgess s American experiences work and documented communication lectures interviews and public utterances are brought together to assess where these commentaries overlapped with his fiction The result is a complex personal and public history about one of Britain s greatest twentieth

century authors and their immersion into and interaction with American culture in the second half of the twentieth century

itself What world is being portrayed and is it even possible How alien can science fiction really be What even is a science fiction world How do we understand a science fiction world What part does the reader play in the creation of the science fiction world Using narratological and stylistic analyses of Kurt Vonnegut Samuel R Delany Ursula LeGuin Joanna Russ and Brian Aldiss this book provides answers to the question of how science fiction is so perfectly formed to ask these kinds of questions of its own world and fictional praxis and explores how these texts allow those worlds to wrap back on themselves in an endless prismatic spiral of self awareness
