**The Genocides** Thomas M. Disch, 2000-11-14 This spectacular novel established Thomas M Disch as a major new force in science fiction First published in 1965 it was immediately labeled a masterpiece reminiscent of the works of J G Ballard and H G Wells In this harrowing novel the world s cities have been reduced to cinder and ash and alien plants have overtaken the earth The plants able to grow the size of maples in only a month and eventually reach six hundred feet have commandeered the world s soil and are sucking even the Great Lakes dry In northern Minnesota Anderson an aging farmer armed with a Bible in one hand and a gun in the other desperately leads the reduced citizenry of a small town in a daily struggle for meager existence Throw into this fray Jeremiah Orville a marauding outsider bent on a bizarre and private revenge and the fight to live becomes a daunting task Controversies in the Field of Genocide Studies Samuel

The Genocide-Ecocide Nexus Damien Short, Martin Crook, 2022-02-09 In a world gripped by an ever worsening ecological crisis there are present and increasing genocidal pressures on many culturally distinct social groups such as indigenous peoples This is where the genocide ecocide nexus presents itself The destruction of ecosystems ecocide can be a method of genocide if for example environmental destruction results in conditions of life that fundamentally threaten a social group s cultural and or physical existence Given the looming threat of runaway climate change the attendant rapid extinction of species destruction of habitats ecological collapse and the self evident dependency of the human race on our bio sphere ecocide both natural and manmade will become a primary driver of genocide Through nine chapters of cutting edge research this book examines specific case studies in geographical settings such as Iraq Sudan Nigeria and Brazil to highlight and analyse the crucial connections and vectors of the genocide ecocide nexus This book will be of great value to scholars students and researchers interested in the ecological crisis Environmental Justice the political economy of genocide and ecocide as well as environmental human rights The chapters in this book were originally published as a special issue of The

Journal of Genocide Research      **The Genocide in Rwanda in Comparative Perspective** Klaus Bachmann,2025-03-31  
This book combines social science concepts history and transitional justice studies to examine the social dynamics specific actors and ideologies involved in the genocide in Rwanda and examines what makes this genocide a unique case of mass violence and political transition compared with other cases of mass violence It analyzes the conditions necessary for people to engage in intimate violence against their neighbors and family members asking what inclines ordinary men and women to join gangs of killers and what role policies authorities ideologies emotions negotiations and material incentives play in the mobilization for mass atrocities Comparing genocidal events elsewhere in time and location the book provides an up to date overview of the 1994 events in Rwanda and offers new and surprising insights from previously inaccessible archival records explaining how to facilitate foreign intervention in the future This book is of key interest to scholars and students of African politics genocide studies and more broadly to security studies conflicts and conflict resolution studies decolonization studies and contemporary and comparative history      **A Cultural Interpretation of the Genocide Convention** Kurt Mundorff,2020-08-25 This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s ideas were held widely in the immediate postwar period Reconstructing the mid century conversation on genocide and situating it in the much broader mid century discourse on justice and society he demonstrates that culture is not a distraction to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law It will be of interest to scholars of genocide human rights international law the history of international law and human rights and treaty interpretation      Genocide Israel W. The Genocide Studies Reader Samuel Totten,Paul Robert Bartrop,2009 This thorough overview of all aspects of the field of genocide studies brings together for the first time classic and contemporary writings from some of the most noted scholars writing on genocide in the fields of genocide studies political science history and sociology The Reader covers key aspects of a host of complex and thorny issues such as the definition of genocide theories of genocide prevention and intervention and its denial This collection of writings is essential reading for anyone who wants to understand this most atrocious form of political violence that has plagued human history     Genocide Wilhelmus Petrus Du Preez,1994 This book attempts to make sense of the senseless Its author considers cases of genocide past and present     **The Kurdish and Armenian Genocides** Desmond Fernandes,2007     *International Action Against Genocide* Leo Kuper,1984 The report that follows has been commissioned and is published by the Minority Rights Group as a contribution to public understanding of the problem which forms its subject It does not necessarily represent in every detail and in all its aspects the collective view of the Group Page ii of cover     **Internet on the Holocaust and Genocide** ,1993     Framing War and Genocide Gregory Kent,2006 Although just a decade ago the destruction of a European state and society through war and genocide remains one of the worst global crises of the post Cold War era with reverberations still felt today Bombardment and sieges of major towns and cities concentration and death camps and the mass slaughter and expulsion of civilians were all characteristics of a type of warfare that Europe had never dreamed might return The war against Bosnia had a major impact on European and wider global consciousness being as it was then the most reported debated and analyzed conflict to date But despite the extensive coverage of Bosnia the author contends the conflict and its origins were certainly misunderstood there being a significant gulf between media perspectives and the thrust of academic discourse This multidisciplinary book is based on extensive research into the TV and newspaper framing of the war during the critical early period of its development Uniquely the analysis of media is underpinned by an extensive and detailed historical argument about the nature of the wars and the politics of the Federation including the use of media in war making strategies in Yugoslavia itself It will be of interest to scholars of IR and politics media communication and journalism studies and war and genocide studies Journalists and the general reader will find the book accessible with valuable insights into reporting war and understanding media representation of conflict Key issues and questions addressed include the critical use of official sources and propaganda in journalism how media and policymakers interact to define and frame problems for policy action what factors limit the accurate reporting of war what is genocide and how is the Genocide Convention relevant in practice and how to report genocide when such coverage conflicts with state interests     **On Feminist Ethics and Politics** Claudia Card,1999 For

years mainstream feminist ethics focused criticism on male supremacy Feminist philosophers in this volume adopt a less male focused stance to look closely at oppression s impact on women s agency and on women s relations with women Examining legal social and physical relationships these philosophers confront moral ambiguity moral compromise and complicity in perpetuating oppression Combining personal experience with philosophical inquiry they vividly portray their daily engagement with oppression as both victims and perpetrators They explore such issues as how pornography silences women and radical feminist politics complicity in racism Among these insightful essays Sandra Bartky argues that women share guilt for racism when they benefit from it without protest Susan Brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for rape or murder Joan Callahan examines fallout of derogatory speech directed at lesbians Virginia Held proposes carrying care into marketplaces and governments and in her introduction Claudia Card draws on Primo Levi s conception of gray zones in exploring dangers of character damage to victims of misogyny A fitting companion to Card s highly regarded *Feminist Ethics* this volume interweaves observations on character political ethics violence and love into an accessible sourcebook for students It tackles some of feminism s most pressing issues and helps readers to identify and then overcome the real damage caused by oppression
