Introduction It s been several years since we ve checked in on Les Mademoiselles and they are now in their final years of high school The problems and challenges of grade school although seemingly insurmountable at the time have long since become faded memories However the friendships formed during those years have remained strong The girls have continued to solve most of the mysteries that came their way but there were always some that remained unsolvable even for these girls Their advanced age of 16 has brought with it some new privileges such as driver licenses This was very important for the young investigators who had once relied on busses begging rides from their parents walking or riding their bikes for their transportation A really good mystery had not come to their attention for longer than they could remember Initially they had been able to elevate the little hamlet of Mattydale which they called home out of its dullness But now they could feel Mattydale slowly slipping back into its old dull and boring past

The Secret of the Gold Coins is an historical fiction story of Les Mademoiselles search for the buried silver left behind by the Jesuits when they abandoned their settlement at Fort Sainte Marie de Gannentaha in 1658 Along the way the girls visit old local locations and encounter many old familiar Mattydale characters both real and fictional some alive and others not quite alive At first Colette and Sam weren t interested in looking for the buried silver since that would involve digging and digging meant getting dirty which wasn t very lady like The Canadian cousin reminded the girls of a mystery they had solved several years ago which he had read about in an old newspaper clipping It involved some gold coins found by Miles Adams on his property in 1863 The cousin thought there was a connection between the coins and the church silver As they thought about it some more during the long ride back to

Mattydale they began to change their minds They rationalized that it was a mystery after all and they could always get someone else to do the digging for them By the time they arrived back home Colette and Sam had convinced themselves that they needed to take a shot at trying to find the treasure After all they thought what if the silver was actually buried in Mattydale and they never even tried to look for it and worse yet someone else discovered it right in their backyard Amazon
