addiction some making it and some not I've learned a few things about what works and what doesn't During the last few years I've been focusing most of my efforts toward something I feel is very important to long term success And the success I'm referring to means a lot more than just sobriety Anyone can quit drinking and drugging A ten year old child can tell you how to quit drinking and drugging Quitting is the easy part Staying clean and sober that's the difficult part The biggest challenge for most people is living life on life's terms without turning to a mood altering chemical And how to do that is what I'm going to share with you in this workbook We'll get into the details of what separates the winners from the losers Some people don't like when I use the word loser However the reality is if you relapse you will increase your chances of losing this game called life If you want to be successful do what successful people do go where they go and learn what they learn Successful people in recovery are willing to do what the unsuccessful people won't do This separates the men from the boys the mature women from the little girls As you complete this small workbook program you'll notice I like to keep things simple I do it this way mainly so I can understand it and then explain things in a way you can understand it Then you can gain the knowledge and apply it to your life We've all heard that knowledge is power Well I've learned that applied knowledge is real power And power means the ability to make things happen to get something done So let's get started

The Grief Recovery Handbook (ILLO). John W. James, *The Addiction Recovery Handbook* Richard W. Clark, 2020-09-28 What Richard Clark presents in *The Addiction Recovery Handbook* Understanding Addiction and Culture is long overdue Since 1939 Bill Wilson's important and influential books *Alcoholics Anonymous* and *AA's Twelve Steps and Twelve Traditions* have helped millions of people struggling with addiction to recover In more than 80 years since then a lot has changed the definition of addiction its demographics social attitudes to addiction politics religious influence treatment modalities and the epidemiology of the illness These have taken tolls on our modern network of relationships and treatment that culture and community now depend upon *The Addiction Recovery Handbook* examines the changing historical views of addiction outlines how this culture developed its contemporary perceptions and values and how society contributes to this growing problem Richard Clark proposes AA's traditional religious model of God's help and forgiveness can no longer address the needs of a diverse and largely irreligious society where atheism is becoming mainstream His updated analysis of the traditional AA approach proposes that self understanding and awareness through knowledge and education psychology and compassion be the significant components of any recovery framework This will guide both caregivers and addicts to develop expertise regarding more successful treatment and recovery protocols This would be in a supportive environment of self knowledge and mutual respect whether theist or atheist All concerned will acquire the ability to live a spiritual life which is clearly defined *The Addiction Recovery Handbook* is an interesting and readable book and is intended for everyone addicts medical professionals counsellors therapists clients sponsors social workers family members partners friends employers every stakeholder in a healthy non judgmental society that cares about the wellbeing of all its members
