The Recurrence Of Fate:

Law in the Courts of Love Peter Goodrich,2002-11-01 Law in the Courts of Love traces the literary history and diversity of past legal systems These minor jurisprudences range from the spiritual laws of the courts of conscience to the code and judgements of love handed down by women s courts in medieval France Professor Goodrich presents the 15th Century Courts of Love in Paris as one instance of an alternative jurisdiction drawn from the diversities of the legal and literary past Their textual records are correspondingly mixed in genre being in the form of poems narratives plays treaties and judicial decisions More broadly these studies trace certain boundaries of modern law and make up one of many forms of legal knowledge which escape today s vision of a unitary law The author believes that the unquestionable faith in a unity law and its distance from person and emotion is precisely what makes impossible the attention to the individual that justice ultimately requires Law in the Courts of Love shows how the historical diversity of forms and procedures of law can competently form the basis for critical revisions of contemporary legal doctrine and professional practice This book will be of interest to undergraduate and postgraduate students of law and literature critical legal studies and legal history or anyone wishing to specialise in feminist legal theory

Kierkegaard on the Philosophy of History G. Patios,2014-04-17 History doesn t have to mean only an effort to know the past It can be instead according to Kierkegaard a willful and personal choice regarding the creation of the future Kierkegaard offers us an amazing new approach to the problem of what is history and who makes it

Doubling and Incest / Repetition and Revenge John T. Irwin,1996-04-09 When it was first published Doubling and Incest Repetition and Revenge proved to be a seminal work in the psychoanalytic study of Faulkner s fiction especially of *The Sound and the Fury* and *Absalom Absalom* This softcover reissue of John Irwin s masterful exposition unwinds the mystery of unconscious desire and doubling that inform the novels

The Lancet ,1887 ***The Paradox of Philosophical Education*** Harvey J. Lomax,2003-01-28 The Paradox of Philosophical Education Nietzsche s New Nobility and the Eternal Recurrence in *Beyond Good and Evil* is the first coherent interpretation of Nietzsche s mature thought

Author Harvey Lomax pays particular attention to the problematic concept of nobility which concerned the philosopher during his later years This sensitive reading of Nietzsche examines nobility as the philosopher himself must have seen it as a true and powerful longing of the human soul interwoven with poetry philosophy religion and aristocratic politics Both a close textual analysis and a thoughtful reconceptualization of Beyond Good and Evil The Paradox of Philosophical Education penetrates beyond the philosopher s mask of caustic irony to the face of the real Nietzsche a lover of wisdom whose work sought to resurrect it in all its Socratic splendor

Tragedy, Recognition, and the Death of God Robert R. Williams,2012-09-27 Hegel and Nietzsche are two of the most important figures in philosophy and religion Robert R Williams challenges the view that they are mutually exclusive He identifies four areas of convergence First Hegel and Nietzsche express and define modern interest in tragedy as a philosophical topic Each seeks to correct the traditional philosophical and theological suppression of a tragic view of existence This suppression of the tragic is required by the moral vision of the world both in the tradition and in Kant s practical philosophy and its postulates For both Hegel and Nietzsche the moral vision of the world is a projection of spurious life negating values that Nietzsche calls the ascetic ideal and that Hegel identifies as the spurious infinite The moral God is the enforcer of morality Second while acknowledging a tragic dimension of existence Hegel and Nietzsche nevertheless affirm that existence is good in spite of suffering Both affirm a vision of human freedom as open to otherness and requiring recognition and community Struggle and contestation have affirmative significance for both Third while the moral God is dead this does not put an end to the God question Theology must incorporate the death of God as its own theme The union of God and death expressing divine love is for Hegel the basic speculative intuition This implies a dipolar panentheistic concept of a tragic suffering God who risks loves and reconciles Fourth Williams argues that both Hegel and Nietzsche pursue theodicy not as a justification of the moral God but rather as a question of the meaningfulness and goodness of existence despite nihilism and despite tragic conflict and suffering The inseparability of divine love and anguish means that reconciliation is no conflict free harmony but includes a paradoxical tragic dissonance reconciliation is a disquieted bliss in disaster

Closure Or Critique Alan William Norrie,1993 Can law be understood as a closed self sustaining system of rules Can it claim a measure of autonomy from broader social political and economic forces or is it always reducible to such forces Is any claim to autonomy false perhaps designed to legitimise the existing social order Is law based upon moral foundations or are ethical considerations deeply disruptive of it Questions of legal and moral closure and of the critique of law s foundations and possibilities lie at the heart of crucial claims about the nature and value of law in modern Western societies Closure or Critique addresses them from a variety of Modern and Postmodern positions central to current legal thought with a ground breaking collection of essays from leading academics

Bringing together a variety of diverse perspectives and encouraging a dialogue between approaches to law that are frequently seen as simply at odds with each other Closure or Critique will be of interest both to the advanced reader seeking new work at the cutting edge and to the first time student requiring an overview of legal theory today BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Lancet** ,1962 **New Readings & New Renderings of Shakespeare's Tragedies** Henry Halford Vaughan,William Shakespeare,1881 **The Oracle of Colour** William Kiddier,1918 *Columbus Medical Journal* ,1893 **The Anamosa Prison Press** ,1903 **Journal of the American Medical Association** ,1922 Proceedings of the Royal Society of Medicine Royal Society of Medicine (Great Britain),1927 Comprises the proceedings of the various sections of the society each with separate t p and pagination **The Jewish Literary Annual** ,1907 **Surgery, Gynecology & Obstetrics** ,1918
