Theism William Wallace Fenn, 1969 *The Science of Religion, Spirituality, and Existentialism* Kenneth E. Vail III, Clay Routledge, 2020-04-04 The Science of Religion Spirituality and Existentialism presents in depth analysis of the core issues in existential psychology their connections to religion and spirituality e g religious concepts beliefs identities and practices and their diverse outcomes e g psychological social cultural and health Leading scholars from around the world cover research exploring how fundamental existential issues are both cause and consequence of religion and spirituality informed by research data spanning multiple levels of analysis such as evolution cognition and neuroscience emotion and motivation personality and individual differences social and cultural forces physical and mental health among many others The Science of Religion Spirituality and Existentialism explores known contours and emerging frontiers addressing the big question of why religious belief remains such a central feature of the human experience Discusses both abstract concepts of mortality and concrete near death experiences Covers the struggles and triumphs associated with freedom self regulation and authenticity Examines the roles of social exclusion experiential isolation attachment and the construction of social identity Considers the problems of uncertainty the effort to discern truth and reality and the challenge to find meaning in life Discusses how the mind developed to handle existential topics how the brain and mind implement the relevant processes and the many variations and individual differences that alter those processes Delves into the psychological functions of religion and science the influence on pro and antisocial behavior politics and public policy and looks at the role of spiritual concerns in understanding the human body and maintaining physical health

The Death of Classical Theism and the Subsequent Rise of Atheism Shane Himes, 2025-03-18 Modernity has seen the rise of atheism and a rejection of classical theism In this book Shane Himes argues that the two realities are largely dependent on one another Many modern Christian apologists are not fond of classical doctrines such as divine simplicity and impassibility and thus they happily reject these ideas The ramifications of doing so however have not been fully appreciated especially as they relate to Christian arguments for God s existence Himes gives an overview of the arguments for God s existence by examining the work of both scholars who reject classical theism and those who embrace it An analysis of these arguments demonstrates that modern models of God make his existence a mere possibility as opposed to a logical necessity As such the arguments given by these scholars leave them susceptible to atheist critiques given that they do not answer the question of why anything exists Without classical theism God becomes one possible answer as to why our particular universe exists the way that it does but apparently this has not been convincing to many as atheism has seen an unprecedented rise in the last two centuries Paradoxically if Christianity is to become dominant once again in academia and Western societies more generally a recovery of classical depictions of God as the ground of all being is paramount

[The Realm of Ends, Or, Pluralism and Theism](#) James Ward, 1911 [Middle Way Philosophy](#) Robert M. Ellis, 2015-07-06 A departure at right angles to thinking in the modern

Western world An important original work that should get the widest possible hearing Iain McGilchrist author of *The Master and his Emissary* Middle Way Philosophy is not about compromise but about the avoidance of dogma and the integration of conflicting assumptions To rely on experience as our guide we need to avoid the interpretation of experience through unnecessary dogmas Drawing on a range of influences in Buddhist practice Western philosophy and psychology Middle Way Philosophy questions alike the assumptions of scientific naturalism religious revelation and political absolutism trying to separate what addresses experience in these doctrines from what is merely assumed This Omnibus edition of Middle Way Philosophy includes all four of the volumes previously published separately 1 *The Path of Objectivity* 2 *The Integration of Desire* 3 *The Integration of Meaning* and 4 *The Integration of Belief* *Beyond Theism* Theodore W. Jennings,1985 What do we mean when we talk about God Does this term actually refer to anything in our experience This book opens up significant new approaches to one of the most important problems confronting theology and the philosophy of religion namely the problem of God language Current philosophical concerns over language have intensified the difficulty of talking about God The necessity of formally proving the meaningfulness of statements about God has led to theological dead ends on the one hand and a retreat to mysticism or irrationality on the other This book moves the discussion of God language to a new plane arguing that God language cannot be understood within a traditional theistic framework Instead a grammar of God language must be identified and in doing this Jennings reaches a fresh view of language one that is applicable to all religions and all human experience the religious as well as the secular **The Trial of Theism** George Jacob Holyoake,1877 **The Logic of the Believing Mind** Russell Foster Aldwinckle,1995 This long theological and philosophical work represents the thought of a senior Protestant theologian Russell Aldwinckle He demonstrates erudition in systematic theology and philosophy of religion and a wide knowledge of classical and contemporary philosophical and theological texts *Theism as Grounded in Human Nature* William Leslie Davidson,1893 **The Princeton Theological Review** ,1919 **The Incarnate Lord** Lionel Spencer Thornton,1928 *Theism as grounded in human nature. Burnett lectures* William Leslie Davidson,1893 **Theism and Empiricism** Alexander Boyce Gibson,1970 *American Ecclesiastical Review* Herman Joseph Heuser,1926 *Westminster and Foreign Quarterly Review* ,1875 *The Encyclopædia Britannica* Hugh Chisholm,1911 **Science and the Religious Life** Carl Leo Rahn,1928 **Basic Ideas in Religion** Richard Wilde Micou,1916 *Theism. Deems lectures* Borden Parker Bowne,1902 **The Encyclopaedia Britannica: Submarine Mines-Tom-tom** ,1911 The last great work of the age of reason the final instance when all human knowledge could be presented with a single point of view Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics Despite its occasional ugliness the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes It is especially strong in its biographical entries These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians scholars The
