such a hypothetical medium of expression it is uniquely suited to philosophical experimentation Indeed because literature invokes imagined or remembered experience it functions as a laboratory in which ideas may be tested against experience Literature's formal qualities which allow for statement and counter statement move and counter move make it a highly sophisticated mode of discourse in which to test out ideas Concepts can be played against each other and genre conventions may be adhered to or subverted in order to create multiple layers of signification The papers presented are published here in this special issue of Publications of the English Goethe Society and take account of German or European poetry drama or prose literature from 1750 to the present day

Bd. Mannesalter Gertrud Storm,1912 **Between National Fantasies and Regional Realities** Arne Koch,2006 Despite its popularity during the nineteenth century regional literature has often been overlooked with regard to its role in the development of German national consciousness By exploring various illustrations of geographic historical landscapes in texts written before the 1848 revolutions and after the 1871 unification this book investigates the vital polyphony generated by unique regional voices throughout the age of nationalism Close readings of texts by Berthold Auerbach Theodor Storm Wilhelm Raabe Fritz Reuter Theodor Fontane Gottfried Keller and Marie von Ebner Eschenbach examine recognizable and unfamiliar regions Although this study concentrates on provincial writings literary regionalism's fictionality and simultaneous referentiality raise broader questions for the programmatic aesthetics of Poetic Realism and for inquiries into identity formation
