The Bible and Catholic Theological Ethics Chan, Yiu Sing Lucas, Keenan, James F., Zacharias, Ronaldo, 2017-05-18

Reframing Catholic Theological Ethics Joseph A. Selling, 2016 Traditionally Catholic moral theology has been based upon an approach that over emphasized the role of normative ethics and subsequently associated moral responsibility with following or disobeying moral rules Reframing Catholic Theological Ethics offers an alternative ethical method which without destroying any of the valuable insights of normative ethics reorients the discipline to consider human motivation and intention before investigating behavioral options for realizing one s end Evidence from the New Testament warrants the formation of a teleological method for theological ethics which is further elaborated in the approach taken by Thomas Aquinas Unfortunately the insights of the latter were misinterpreted at the time of the counter reformation Joseph A Selling s analysis of moral theological textbooks demonstrates the entrenchment of a normative method aimed at identifying sins in service to the practice of sacramental confession With a firm basis in the teaching of Vatican II the human person integrally and adequately considered provides the fundamental criterion for approaching ethical issues in the contemporary world The perspective then turns to the crucial question of describing the ends or goals of ethical living by providing a fresh approach to the concept of virtue Selling concludes with suggestions about how to combine normative ethics with this alternative method in theological ethics that begins with the actual ethical orientation of the human person toward virtuous living

**Catholic Theological Ethics** Todd A. Salzman, Michael G. **Theological Ethics and Moral**

**Value Phenomena** Steven C. van den Heuvel, Patrick Nullens, Angela Roothaan, 2017-09-22 The experience of moral values is often side lined in discussions about moral reasoning and yet our values define a large part of our moral motives standards and expectations Theological Ethics and Moral Value Phenomena explores whether the experience of a meeting point of the immanent and the transcendent i e the moral self and God can be the source of our values The book starts by arguing for a greater theological engagement with value ethics personalism and the phenomenological method by drawing on thinkers such as Max Scheler and William James It then provides an understanding of the social and religious dimension of the valuing person demonstrating the importance of the emotional as well as the cognitive dimension of value experience Finally this value perspective is utilised to engage with current moral issues such as professional ethics environmental ethics economical ethics and family ethics Integrating the concepts of religious experience moral motivation and subjective and objective value within a broad framework of Christian theology and philosophy this is vital reading for any scholar of Theology and Philosophy with an interest in ethics and moral reasoning
