Three Uses Of The Knife:

Three Uses of the Knife David Mamet, 2000-06-13 The purpose of theater like magic like religion is to inspire cleansing awe What makes good drama And why does drama matter in an age that is awash in information and entertainment David Mamet one of our greatest living playwrights tackles these questions with bracing directness and aphoristic authority He believes that the tendency to dramatize is essential to human nature that we create drama out of everything from today's weather to next year's elections But the highest expression of this drive remains the theater With a cultural range that encompasses Shakespeare Brecht and Ibsen *Death of a Salesman* and *Bad Day at Black Rock* Mamet shows us how to distinguish true drama from its false variants He considers the impossibly difficult progression between one act and the next and the mysterious function of the soliloquy The result in *Three Uses of the Knife* is an electrifying treatise on the playwright's art that is also a strikingly original work of moral and aesthetic philosophy

Show and Tell John Lahr, 2002 What a talented wonderful and complete writer Mel Brooks By far the best thing about my stuff I've ever read Arthur Miller These are wonderful portraits Edna O'Brien The high water mark of theatrical reportage Exhilarating Smart Lahr gives as much thunderous pleasure as the great entertainers he writes about Richard Avedon There's never been an American critic like John Lahr His writing exalts honors and dignifies the profession and more importantly the art Tony Kushner *The Art of Crime* Leslie Kane, 2004-08-02 This collection of 15 original essays assembled by renowned Mamet and Pinter scholar Leslie Kane examines the pervasiveness of crime and criminality in the plays and screenplays of two of the most influential contemporary dramatists The contributors generally focus on one or more works by a single writer while a few take a comparative approach Often the works studied are lesser known or infrequently discussed works thereby making this volume a valuable addition to current scholarship In addition this volume complements other works on Mamet and Pinter on our backlist including Kane's earlier edited volumes on Mamet which both received solid sales and accolades from Choice Assembled by a Garland Routledge author with a proven sales record and impressive critical reception this collection should be an easy sell to academic and theater libraries as well as Pinter and Mamet specialists

The Plays, Screenplays and Films of David Mamet Steven Price, 2008-09-09 David Mamet is arguably the most important living American playwright This Guide provides an up to date study of the key criticism on the full range of Mamet's work It engages with his work in film as well as in the theatre offering a synoptic overview of and critical commentary on the scholarly criticism of each play screenplay or film

White V. Clark, 1991 **Syncretic Arenas** Isidore Diala, 2014-11-15 This collection in part examines the legacy of the consummate Nigerian stage artist and scholar Esiaba Irobi 1960-2010 Poems tributes and studies celebrate Irobi's significance as actor playwright director poet and theatre theorist Irobi's life temper times and career are inextricably linked to the history development concerns and uses of drama and theatre in Africa The contributions highlight the evolution of autochthonous theatrical practices the interaction between Western and indigenous African performance

traditions colonial postcolonial government policies and the mutations of drama and theatre and critical commentary the tensions inherent in postcolonial conceptions of history identity nationhood and articulations of alternative aesthetics pedagogies and epistemologies for postcolonial African theatre staging African plays in the West and the constituencies of the contemporary African playwright and director The strength of these studies derives primarily from nuanced examinations of the concerns and careers of particular African playwrights the history offerings and fortunes of particular theatrical arenas and close explorations of specific performances and texts The foregrounding of correspondences in the dramaturgies and intellectual ferment of the continent critically accentuates equally privileged regional historical and other crucial specificities Situated in time and place while underscoring the political and intellectual intersections of a shared history of colonialism the contributions to Syncretic Arenas individually and collectively reveal the transformations and growing strengths of postcolonialism as an analytical strategy Isidore Diala is Professor of African literature in the Department of English and Literary Studies at Abia State University Uturu and author of *Esiaba Irobi's Drama and the Postcolony Theory and Practice of Postcolonial Performance* 2013
