**Uttarakhand, Prospects of Development** G. S. Mehta, 1996 Analysis of development experience in Uttarakhand Region comprising eight hill districts situated in Northern part of Uttar Pradesh India *Rethinking State Politics in India* Ashutosh Kumar, 2012-03-12 Focusing on the twin issues of identity and development that are often signifiers of the unravelling politics in the federal polity the book make a concerted attempt to look at and beyond the states by exploring the specificities of the regions within these states It does so through a comparative study from the vantage point of democratic politics as it unfurls in recent India Emphasising that regions within the states are not merely politico administrative instituted constructs but are also imagined or constituted among others in historical geographic economic sociological or cultural terms it argues that any meaningful comparative study of the regions would naturally straddle the disciplinary boundaries of social sciences The book attempts to go beyond the states and look at the regions within them as a distinctive analytical category for an in depth study of the democratic politics of identity and development unfolding at the state level Development of Uttarakhand G. S. Mehta, 1999 *Decentring the Indian Nation* Andrew Wyatt, John Zavos, 2023-03-31 First published in 2003 Decentring the Indian Nation examines the various centrifugal forces apparent in recent Indian politics After achieving independence in 1947 India s elite opted to build a modern nation state This idea was carefully nurtured during the fight for freedom from British rule by the dominant Congress movement In recent years the idea of a centralised state has been challenged from a number of directions Strong regional political movements have questioned the assumption that India s federal system requires a dominant centre The related trend of identity based mobilisation has challenged settled notions of Indian national identity The authors discuss the idea that as a nation India is becoming decentred and consider the implications of this idea for the development of the Indian polity This book will be of interest to students of politics geography and development
