Co-Engineering and Participatory Water Management Katherine A. Daniell, 2012-05-31 Effective participatory water management requires effective co engineering the collective process whereby organisational decisions are made on how to bring stakeholders together This trans disciplinary book highlights the challenges involved in the collective initiation design implementation and evaluation of water planning and management processes It demonstrates how successful management requires the effective handling of two participatory processes the stakeholder water management process and the co engineering process required to organise this The book provides practical methods for supporting improved participatory processes including the application of theory and models to aid decision making International case studies of these applications from Australia Europe and all over the world including Africa are used to examine negotiations and leadership approaches and their effects on the participatory stakeholder processes This international review of participatory water governance forms an important resource for academic researchers in hydrology environmental management and water policy and also practitioners and policy makers working in water management

Learning to Teach Geography in the Secondary School Mary Biddulph, David Lambert, David Balderstone, 2015-05-20 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography It helps you acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and challenging lessons It is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education The very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school Fully revised and updated in light of extensive changes to the curriculum as well as to initial teacher education the new edition considers the current debates around what we mean by geographical knowledge and what s involved in studying at Masters level Key chapters explore the fundamentals of teaching and learning geography Why we teach and what to teach Understanding and planning the curriculum Effective pedagogy Assessment Developing and using resources Fieldwork and outdoor learning Values in school geography Professional development Intended as a core textbook and written with university and school based initial teacher education in mind Learning to Teach Geography in the Secondary school is essential reading for all those who aspire to become effective reflective teachers Praise for previous editions of Learning to Teach Geography in the Secondary School This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work a standard reference for many beginning teachers on geography initial teacher training courses

Educational Review **Close of Play** Walcott William Walcott,2019-10-15 In this allegorical excursion William Walcott explores the intersections between United States politics and the game of cricket in a book reminiscent of C L R James s classic Beyond a Boundary In Close of Play Walcott highlights the careers of former US president Barack Obama and the Trinidadian cricket and cultural phenom Brian Lara one of the greatest batsmen of all time who Obama once called e the Michael Jordan of cricket e Readers are invited to explore the parallel poetics of politics and sport through the life and words of these luminaries both of whom promised to deliver far reaching social change yet found themselves e on the back foot e In his analysis Walcott delves into matters of Caribbean and American identity political leadership oratory and the blending of cricket vocabulary into political commentary He also challenges us to understand the sociological links between international sport socio economic inequality and racial politics This book is a fascinating journey into the world of global sociopolitical life and the curiosities of language embedded in cricket and political play both of which constitute enormous sectors within a multibillion dollar e sticky wickete of transnational capitalism **Ethical and Spiritual Values in Counseling** Mary Thomas Burke,Judith G. Miranti,1992 Claiming Value Alena Wolflink,2022-09-08 Value is typically theorized from the frameworks of economic theory or of moral ethical theory but we need to instead think about value foremost as political Alena Wolflink uncovers a tension in value discourses between material and aspirational life As she shows erasing this tension as has been the historical tendency can entrench existing configurations of power and privilege while acknowledging the tension is a vital part of democratic practice Using genealogical conceptual historical and interpretive approaches and drawing from such diverse sources as Aristotle Anna Julia Cooper Michael Warner Alicia Garza and Patrisse Khan Cullors Wolflink argues that abstractions of value discourse in both economic theory and moral philosophy have been complicit in devaluing the lives of women queer people and people of color Yet she further argues that value claims nonetheless hold democratic potential as a means of asserting and defining priorities that center the role of political economy in the making of political communities With many real world examples vividly portrayed Claiming Value is an unusually accessible work of political theory accessible to students in courses on political theory moral philosophy social theory economic theory democracy social inequality and more **History Education and the Truth Problem** Terry Haydn,2026-05-01 With misinformation and distorted versions of the past gaining dangerous traction worldwide it is crucial that students and adults can discern between good and bad history and make accurate and well founded judgements on contemporary issues and problems This timely book explores the concept of truth in the discipline of history and argues that history education must evolve to combat the post truth crisis The book examines how recent changes in society and in technology have had a disruptive influence on both the writing of history and on its consumption and use and the consequences of this for the health and vitality of societies worldwide It considers how history education might address the truth problem more effectively so students understand how knowledge is constructed questioned and deployed and can make intelligent and rational decisions

about what to believe both about the past and the present Offering innovative approaches for adapting history education for our technological age this book is essential reading for history educators historians and all those who are interested in history and concerned about the slide into a post truth world Curriculum Construction Laurie Brady,Kerry Kennedy,2013-10-24 Curriculum Construction 5e introduces and analyses all aspects of curriculum development interpretation and implementation The text develops students understanding of both the theoretical and practical components of curriculum construction The theoretical dimension of the text includes coverage of the broad social and political influences on a curriculum coverage of global contexts national curriculum initiatives and a discussion of values in education The practical section of the text provides teachers as well as members of the school community with the knowledge and skills to engage fully in the task of curriculum construction *The Philatelic Journal of Great Britain* ,1898
