Vv Vereshchagin:

V.V. *Vereshchagin* Vahan D. Barooshian, 1993 A pleasure to read The balance between the fascinating biographical detail and the larger view of the society is always delicately handled Barooshian makes a compelling case for the stature of the man as a critic of war a rugged individualist and a most cosmopolitan representative of the great moral traditions of the Russian 19th century intelligentsia Maria Banerjee Smith College V V Vereshchagin the most popular and famous Russian artist in Western Europe and America in the last quarter of the 19th century dedicated his life and art to opposing violence Yet today his personal legacy of peace is forgotten This biography tells for the first time in English the story of Vereshchagin s courage and tenacity in his struggle against the misery of war Using historical accounts and the artist s own writings Barooshian examines Vereshchagin s artistic depiction of war both historic and contemporary showing how it underwent a radical transformation in life as well as in art as it matured He explores the role that war played in the 19th century idea of progress and devotes one chapter to Vereshchagin s representation of Napoleon s invasion of Russia in 1812 To Vereshchagin and others of the intelligentsia Russian colonial expansion raised ethical dilemmas their art was frequently at cross purposes with the state Barooshian notes the parallels in this regard between Vereshchagin s and Tolstoy s visions of history While this is a book for scholars of history politics and art general readers as well will discover an absorbing personal story of Vereshchagin s travels experiences in war continual problems with money and the Russian autocracy and dealings with patrons and commercial agents Vahan D Barooshian is professor of Russian at Wells College Aurora New York He is the author of *Russian Cubo Futurism 1910 1930 Brik and Mayakovsky and The Art of Liberation Alexander A Ivanov* and has written numerous articles on Russian and Armenian history poetry art politics literature and theater

Photographing, Exploring and Exhibiting Russian Turkestan Inessa Kouteinikova, 2022-12-30 This book illuminates the crucial role photography played from the very beginning of the Russian colonial presence in Central Asia and its entanglement with the orientalist legacy that followed Inessa Kouteinikova examines these under studied materials while also addressing the photographic market and reception of photography in the Russian Empire the position of the popular press the place of public exhibitions and emergence of the first ethnographic museums that took pace from Moscow to Tashkent during the time of the Russian conquest This book embraces the dominant mode for representing the new colonial territories in the mid late 19th century Russia by outlining the technical commercial and artistic milieus during the Golden Age of Russian orientalism The book will be of interest to scholars working in art history history of photography and Russian studies

History and Myth in Pictorial Narratives of the Russian 'Patriotic War', 1812-1914 Andrew M. Nedd, 2024-07-08 This book reveals that the visual narrative of the events of the Russian campaign of 1812 was inextricably linked to Russia s search for national identity and helped to form competing definitions of Russianness No pre revolutionary military event was more celebrated in Russian literature and art than the Patriotic War of 1812 during which Napoleon advanced his Grand Arm e into Russia only to retreat months later

in defeat as his army faced starvation and capture during the brutal winter. The works of art that retold the story of 1812 extolled virtues that were represented as inherently Russian: courage, resourcefulness, and unity. Furthermore, these values were increasingly contrasted with those of the foreign invader from the west. While the emphasis is largely on academic painting, this book also explores popular media and memorialization in order to reveal the role that images played in the process of constructing identities in nineteenth-century Russia. *Russian Orientalism* David Schimmelpenninck van der Oye, 2010-04-20. Here the author examines Russian thinking about the Orient before the Revolution of 1917. He argues that the Russian Empire's bi-continental geography and the complicated nature of its encounter with Asia have all resulted in a variegated understanding of the East among its people. *Framing Russian Art* Oleg Tarasov, 2012-01-01. The notion of the frame in art can refer not only to a material frame bordering an image but also to a conceptual frame. Both meanings are essential to how the work is perceived. In *Framing Russian Art*, art historian Oleg Tarasov investigates the role of the frame in its literal function of demarcating a work of art and in its conceptual function affecting the understanding of what is seen. The first part of the book is dedicated to the framework of the Russian icon. Here Tarasov explores the historical and cultural meanings of the icon's setting and of the iconostasis. Tarasov's study then moves through Russian and European art from ancient times to the twentieth century, including abstract art and Suprematism. Along the way, Tarasov pays special attention to the Russian baroque period and the famous nineteenth-century Russian battle painter Vasily Vereshchagin. This enlightening account of the cultural phenomenon of the frame and its ever-changing functions will appeal to students and scholars of Russian art history.

Central Asia on Display European Society for Central Asian Studies. International Conference, 2004. Despite its geostrategic importance and its easier accessibility since the dissolution of the Soviet Union, Central Asia has nevertheless remained a white spot on the map of western scholarship and public awareness. Bringing together papers presented at the VII ESCAS Conference, this volume aims to shed light on the historical, political, cultural, and socio-economic development of this region. Scholars from within and outside Central Asia discuss a wide range of topics covering historical processes and events on the one hand and present developments of regional and global concern on the other.
