he only served as the Chief Executive for 30 days and he spent the majority of those in bed fighting for his life and eventually losing. However, to ignore Harrison because he served such a short time in the White House is just as foolish as ignoring Patrick Henry or Alexander Hamilton because they were never elected to the nation's highest office. In fact, like Henry, Hamilton, and many others from the early days of the Republic, Harrison served his country in many ways and was one of the most consequential figures both in politics and the military, which makes it all the more unfortunate that much the same way Hamilton is remembered for the duel with Aaron Burr, Harrison is remembered for being the first president to die in office. The manner of Harrison's death and the length of his inaugural address have overshadowed the various facets of his life and career. For instance, few people know of his famous family, how he dropped out of medical school to become a soldier, and how he eloped with a young woman and went on to have 10 children with her. Harrison's early political career also remains relatively unknown; few realize that he spent much of his early adulthood in what was then still wilderness, first as a soldier, then as the Territorial Governor of the Indiana Territory. Older Americans may have heard the phrase used during his election: "Tippecanoe and Tyler Too," but even that battle was overshadowed by the War of 1812. Many people look at his austere portrait and do not realize that he served in both the United States House and Senate and that he also lived in South America as an American diplomat. Even during his short presidency, he accomplished lasting work, laying the foundation for what later became the rules of the American Civil Service system. Thus, even while it is true that he had the shortest presidency in American history, Harrison managed to accomplish more for the long-term good of the nation than other men have in a much longer time.

William Henry Harrison Mary Jane Child Queen, 2007

A lone lanky soldier sat at a hand-hewn table hunched over a note pad and a few worn books, quite oblivious of the boisterous men around him. This was often the scene at Fort Washington in the fall and winter of 1791. At the age of 18, Ensign William Henry Harrison had arrived at General St. Clair's post, Fort Washington, expecting a well-disciplined band of men. Instead, young Harrison, recently sent from Fort Pitt, was shocked at the condition. Just before his arrival with his eighty recruits, there had been a major Indian attack. Seven hundred soldiers had been killed, and about one-third of them scalped. Women and children had been brutally murdered; other women and children taken for slavery or adoption into the tribe. General St. Clair had been wounded. Under young Harrison's direction, the arms and supplies were replaced, and soon after the fort was back in the same old routine. The idle soldiers, under a recovered St. Clair, were again indulging in heavy drinking, petty fighting, and even duelling. Harrison decided then and there that he would spend his time studying military history, battle strategy, and literature. No wasteful, destructive behaviour for him, but self-improvement of character and education in his chosen career. The event best illustrates
