## **William Lescaze:**

William Lescaze, Architect Lorraine Welling Lanmon, 1987      **William Lescaze** Christian Hubert, Lindsay Stamm Shapiro, Joe and Emily Lowe Art Gallery (Syracuse University), 1982      **Europe Meets America** Gaia Caramellino, 2016-08-17 An analysis of the New York professional milieu between the Wall Street Crash of 1929 and the aftermath of WWII reveals an unexpected scenario in which diverse branches of technical culture and professional and institutional spheres often overlap and initiatives in the field of architecture are characterised by tensions between designers and technicians which pave the way for issues of architects autonomy responsibility and social roles in the New Deal From an initial portrayal of William Lescaze 1896 1969 as an unconventional figure straddling two continents this book challenges a long established interpretation that sees Lescaze exclusively as promoter of the International Style canons in the United States Moving beyond it this book focuses on the role that the Swiss architect played in defining the main features of New York social housing and in the evolution that marks the encounter between European modernity and an American federal scene still profoundly tied to local conventions From an initially difficult status as an migr to his involvement in decisional processes and bureaucratic organisations Lescaze s professional progress coincides with the gradual acceptance of European forms and models which little by little became part of the institutional language related to public housing which would remain prevalent in New York City until the end of WWII Drawing from yet unpublished archival sources pertaining to two fields housing and architecture which have traditionally been separate in American historiography this book sheds light on many crucial issues in a branch of architecture that is particularly relevant today      *William Lescaze* William Lescaze, Christian Hubert, 1993      **A Selection from the Work Designed by William Lescaze, Architect, New York City** William Lescaze, 1942      **Air-Conditioning in Modern American Architecture, 1890-1970** Joseph M. Siry, 2021-02-01 Air Conditioning in Modern American Architecture 1890 1970 documents how architects made environmental technologies into resources that helped shape their spatial and formal aesthetic In doing so it sheds important new light on the ways in which mechanical engineering has been assimilated into the culture of architecture as one facet of its broader modernist project Tracing the development and architectural integration of air conditioning from its origins in the late nineteenth century to the advent of the environmental movement in the early 1970s Joseph M Siry shows how the incorporation of mechanical systems into modernism s discourse of functionality profoundly shaped the work of some of the movement s leading architects such as Dankmar Adler Louis Sullivan Frank Lloyd Wright Ludwig Mies van der Rohe Gordon Bunshaft and Louis Kahn For them the modernist ideal of functionality was incompletely realized if it did not wholly assimilate heating cooling ventilating and artificial lighting Bridging the history of technology and the history of architecture Siry discusses air conditioning s technical and social history and provides case studies of buildings by the master architects who brought this technology into the conceptual and formal project of modernism A monumental work by a renowned expert

in American modernist architecture this book asks us to see canonical modernist buildings through a mechanical engineering oriented lens It will be especially valuable to scholars and students of architecture modernism the history of technology and American history

*Building Character* Charles L. Davis II,2019-09-06 In the nineteenth century paradigm of architectural organicism the notion that buildings possessed character provided architects with a lens for relating the buildings they designed to the populations they served Advances in scientific race theory enabled designers to think of race and style as manifestations of natural law just as biological processes seemed to inherently regulate the racial characters that made humans a perfect fit for their geographical contexts architectural characters became a rational product of design Parallels between racial and architectural characters provided a rationalist model of design that fashioned some of the most

influential national building styles of the past from the pioneering concepts of French structural rationalism and German tectonic theory to the nationalist associations of the Chicago Style the Prairie Style and the International Style In *Building Character* Charles Davis traces the racial charge of the architectural writings of five modern theorists Eugene Emmanuel Viollet le Duc Gottfried Semper Louis Sullivan Frank Lloyd Wright and William Lescaze to highlight the social political and historical significance of the spatial structural and ornamental elements of modern architectural styles     **Encyclopedia of Interior Design** Joanna Banham,1997-05 First published in 1997 Routledge is an imprint of Taylor Francis an informa company     **The Courier** ,1984     Brickbuilder ,1930     *The Museum* ,1928     **The Newark Museum Quarterly** ,1925 Vols for 1977 include Newark Museum annual report as winter issue     William Lescaze, 1896-1969 Lamia Doumato,1982     Arts & Decoration ,1928     ARTnews ,1953     **Presidential Temples** Benjamin Hufbauer,2005 This book explores the visual and material cultures of presidential commemoration memorials and monuments libraries and archives and the problematic ways in which presidents themselves have largely taken over their own commemoration The author sees these various commemorative sites as playing a key role in the construction of our collective political and cultural self images and as another sign of our preoccupation with celebrity culture Ultimately he contends these presidential temples reflect not only our civil religion but also the extraordinary expansion of executive authority and presidential self commemoration since FDR     *Town & Country* ,1929
