Plays of Negro Life Alain Locke,Thomas Montgomery Gregory,1927 The drama of negro life is developing primarily because a native American drama is in process of evolution Thus although it heralds the awakening of the dormant dramatic gifts of the Negro folk temperament and has meant the phenomenal rise within a decade s span of a Negro drama and a possible Negro Theatre the significance is if anything more national than racial For pioneering genius in the development of the native American drama such as Eugene O Neill Ridgley Torrence and Paul Green now sees and recognizes the dramatically undeveloped potentialities of Negro life and folkways as a promising province of native idioms and source materials in which a developing national drama can find distinctive new themes characteristic and typical situations authentic atmosphere The growing number of successful and representative plays of this type form a valuable and significant contribution to the theatre of today and open intriguing and fascinating possibilities for the theatre of tomorrow Introduction

Mountains assumes that each of the mountains mentioned in the Bible has a unique meaning and significance They are more
than topographical features they are spiritual icons for us to understand Then as the meaning of each mountain comes to
light we find that God cannot be honored without faith that He is capable of great wrath and great mercy both that He has a
standard of conduct for all humans for all time that He relates to us by grace and that He has appointed us to share that
message with a fallen race and more And He promises that He personally is the resource we need to reach pinnacles of the
right mountains The Sovereign Lord is my strength He makes my feet like the feet of a deer He makes me go on the heights
