**Research Handbook on Inequalities and Work** Cynthia Forson,Geraldine Healy, Mustafa B. Öztürk,Ahu Tatli,2024-03-14 This multidisciplinary international Research Handbook on Inequalities and Work examines disparities within contemporary working life and comes at a critical juncture of socio historical change As the world reels from the impact of economic insecurity the pandemic the Black Lives Matter and MeToo movements the trans liberation fight the climate crisis and the rise of Artificial Intelligence systemic inequalities and their impacts have been thrust into the limelight alongside the ceaseless struggle for social justice Against this background the Handbook provides cutting edge research studies that offers unique insight into the international nature of inequalities at work **Work and Legal Guidelines in the Age of Digitalisation and Green Transition** Rita Remeikienė,Ligita Gasparėnienė,2025-12-24 This open access book provides important insights into the integration of digitalisation and green economy into the platform economy and how these processes can contribute to the improvement of legal labour regulations and processes in the EU and Eastern Europe It addresses the following key topics the impact of digitisation on the labour market including the impact of robotics and automation on the changing nature of work the organisation of work through digital platforms the relationship between workers and employers the challenges of implementing the Green Deal strategy in the labour market the specifics and types of platform work problems concerning labour regulation on digital platforms in Eastern and Southern European countries such as Moldova Ukraine Bosnia and Herzegovina Serbia Montenegro and Albania and the results of an empirical survey The

topics are highly relevant in the contemporary context as the European Parliament adopted the Platform Work Directive in 2024 after several years of debate This Directive aims to sift out the working patterns of the platform sector introducing clear criteria on what is considered to be an individual activity and what is considered to be an employment relationship The EU Directive calls upon each EU country to develop its own criteria for assessing whether certain work carried out via platforms is based on an employment relationship or merely constitutes an individual activity One of the book's main objectives is to present possible business models for digital platform work that offer greater social protection for the worker by analysing the theoretical aspects of digitalisation and the integration of the green economy into the labour market and the legal framework for digital labour market platforms in Eastern and Southern European countries The book will be of interest to policymakers responsible for regulation of the labour market trade unions university lecturers and students of economics and law who are interested in delving into the characteristics and regulation of the digital economy and the digital labour market labour platform workers and employers [Handbook of Radiotherapy Planning](#) Minsun Kim, Mu-Han Lin, 2026-02-23

The Handbook of Radiotherapy Planning covers essential concepts and practical considerations for achieving high quality external beam radiotherapy plans Edited by recognized experts and authored by highly skilled planners this concise guide emphasizes plan quality as a critical clinical skill It bridges the gap between standard reference materials and day to day clinical practice by providing anatomical site specific guidelines planning tips real world examples and advanced topics Each chapter highlights decision making processes common pitfalls and techniques to improve consistency and quality across a variety of disease sites and treatment approaches The book fosters collaborative workflows and promotes a deeper understanding of treatment planning beyond minimum standards This book is intended for physicists dosimetrists and radiation oncologists who seek practical and high yield guidance in radiotherapy planning particularly those building their skills early in their careers **AI Business for Everyone** Michael T. Murphy, AI income strategies that actually work for YOUR life This 1 000 page manual guide delivers hyper personalized passive income roadmaps for 15 demographics parents retirees freelancers everyone With 2 100 ready to use prompts case studies exposing costly pitfalls and aggressive 30 day action checklists you'll build your 1 000 monthly automated income while others just read about AI While others debate whether AI will take their jobs smart individuals across every demographic are quietly building automated income streams generating thousands monthly This isn't another generic make money with AI guide assuming everyone's a tech savvy twenty something This is the first truly democratized roadmap to AI wealth crafted for YOUR specific situation Whether you're a stay at home parent squeezing work between school runs a retiree navigating technology a burned out freelancer seeking leverage or an influencer fighting algorithm changes this 1 000 page manual guide delivers hyper personalized strategies for your unique circumstances Each of fifteen demographic focused chapters weaponizes your specific advantages and turns perceived limitations into competitive edges What sets this guide apart is relentless practicality This isn't theoretical

exploration it's a bootcamp. Every chapter demands action through implementation checklists leaving zero room for procrastination. You'll launch micro businesses during naptime, automate client work during lunch breaks, and build passive income streams aligned with your lifestyle constraints. At its heart lies an arsenal of 2100 battle-tested prompts categorized by industry and demographic needs. These aren't generic templates; they're precision-engineered tools transforming ChatGPT and Claude into your personal workforce. From healthcare practitioners needing HIPAA-compliant content to pet entrepreneurs dominating Instagram, every prompt delivers immediate monetizable results. Through detailed case studies, you'll witness actual people, not gurus, building sustainable AI businesses. Meet the seventy-year-old launching an AI consulting firm, the exhausted mom automating her way to 3,000 monthly, the weekend hobbyist whose Chrome extension generates 5,000 monthly. Crucially, you'll learn their failures and costly mistakes too. This isn't success theater; it's unvarnished truth about building AI income. Every chapter follows an aggressive thirty-day timeline transforming overwhelming possibilities into daily actions: Week one, tool setup and niche selection; Week two, minimum viable product; Week three, testing and refinement; Week four, launch and scale. The structure pushes you from zero to revenue through forced accountability and relentless momentum. Specialized sections address challenges facing regulated industries and creative professionals: Healthcare practitioners monetize expertise while maintaining ethical boundaries; Artists discover how AI enhances rather than replaces creativity; Educators transform teaching skills into automated course empires; Small business owners multiply revenue without multiplying headcount. This isn't about replacing human creativity with artificial intelligence; it's about amplifying existing advantages through strategic automation. The book teaches you to identify unfair advantages—whether life experience, professional network, or availability during odd hours—and systematically convert them into income-generating systems working while you sleep, parent, travel, or pursue passions. The comprehensive prompt library eliminates the learning curve, allowing immediate implementation. Action checklists ensure you're not just reading but doing. Real-world examples show both spectacular wins and cautionary tales, preparing you for every scenario. Join thousands discovering the AI gold rush isn't just for Silicon Valley insiders. Your demographic isn't a limitation; it's your secret weapon in the 72-billion AI economy. Stop watching. Start building. Your automated income stream awaits.

**Guidance Research for Helicopters** R. V. Denton, 1987 *Development of Guidelines for Practical and Realistic Construction Specifications* Miller-Warden Associates, 1965. A highway construction specification is a means to an end. Its mission is to provide the traveling public with an adequate and economical pavement on which vehicles can move easily from point to point. Specifications should be of the end result materials and methods or restricted performance types depending on the conditions of acceptance. To achieve maximum economy, specification requirements must be geared to policy and cost considerations. To insure practicality, the given administrative and engineering guidelines should be consulted. This report presents guidelines for the preparation of a complete specification meeting all requirements.
