Who Will Remember You? Israel B. Bitton,2021-10-06 Memory A word so often said often thought of and continuously studied Yet we know relatively so little other than how vast and magnificent it is In Who Will Remember You A Philosophical History and Theory of Memory and Will Israel B Bitton offers an interdisciplinary perspective that unifies philosophy of memory with history neuroscience culture and ethics yielding novel insights into the elusive phenomena of memory namely its universality Bitton posits that the current and typical misunderstanding of memory stems from over specialization in scientific research a compartmentalization that does not support reaching holistic conclusions which are necessary for fully appreciating the totality of memory phenomena No longer should memory be thought of as residing only in the brain for the body is known to have memory too but neither should it be thought of as exclusively human since it inheres in all matter as a physical and biological fact Indeed Bitton extends the philosophical and practical meanings of memory furthest in great detail employing the latest research in neuroscience to support his case In this work Bitton traces the kernels of these ideas from the ancient Egyptians and Israelites all the way through to the modern period in philosophy science and popular culture demonstrating that his philosophical formulation has always been and remains accepted de facto by society as can easily be detected in various social trends Upon offering his holistic account that considers the magnitude of memory phenomena across several disciplines Bitton presents a novel theory that postulates the primary human drive as categorized by a will to significance which because of the universality of memory becomes a will to memorability By placing the individual at the center of their own memory reality they can be empowered to safeguard enhance and extend the universal force of memory within and around them From that vantage point this book provides its audience with ideas meant to provoke and incite the readers own reflections on memory s meaning and import as well as what it takes to be an ethical memory agent in an era of hyper fake news

Responsive Prayers David Sparks,2018-05-30 *Permission* Cynthia Hogue,2021-10-04 There was not any one issue that prompted the birth of this book But a myriad of life issues that caused me to seek answers that would resolve or

give me peace in those situations Family issues work issues and issues with who I was and how I was handling any given situation My hope and prayer as you begin to read this book is that you feel a sense of this is just what I needed at this particular time I pray that you are able to see yourself in these pages During the process I often heard what makes you think you can write What makes you think you have anything to say or that there is anyone who wants what you are offering And then I was reading People I met at the gates of heaven by Don Piper In chapter two he wrote What qualifies me to write this book His answer was I went there and I returned That s my reason and authority My answer is simply I lived it and I returned me back to me That s my reason and authority Be Blessed Y all
