*Medieval Islamic Pragmatics* Muhammad M. Yunis Ali, 2013-10-08. This book deals with two different pragmatic approaches to textual communication: i) the mainstream approach followed by the Ash'ari's Hanafis and Mutazilis; ii) the Salafite approach followed mainly by the Hanbalis, defended and elaborated by Ibn Taymiyyah. One of the primary aims of the book is to explore and formulate several Muslim legal theorists' pragmatic theories, communicative principles and linguistic views, construct them in the form of models and set them within a general uniform framework. Another aim is to reveal a corpus of information and data which though highly relevant to modern pragmatics is still unknown. This study, which can be seen as an extensive introduction to medieval Islamic pragmatics, is the first attempt to examine the approaches followed by the Salafis or the mainstream from a pragmatic viewpoint. There has been no attempt to explain the principles and the strategies utilised by the medieval Sunni Muslim legal theorists in their account of how communication works and how successful interpretation is achieved. Of course a lot of work has been done on different Islamic sects and their different positions over the interpretation of the Quran and Sunnah, but these studies fall short of delving into the underlying communicative principles that motivate their differences over interpretation. The author's formulation of the Muslim legal theorists' views is enhanced by setting up a reliable theoretical foundation and by delving into their underlying philosophical principles. This involves relating the legal theorists' insights into interpretation and communication to their relevant ontological, epistemological and theological outlooks and comparing these insights with their modern pragmatic counterparts.

*Pragmatics*, 2008. **Thoughts and Utterances** Robyn Carston, 2008-04-15. *Thoughts and Utterances* is the first sustained investigation of two distinctions which are fundamental to all theories of utterance understanding: the semantics/pragmatics distinction and the distinction between what is explicitly communicated and what is implicitly communicated. Features the first sustained investigation of both the semantics/pragmatics distinction and the distinction between what is explicitly and implicitly communicated in speech.

Discourse Markers in Colombian Spanish Catherine E. Travis, 2005. The study of discourse markers has been a hot topic in linguistics in recent years, yet their semantics has not been dealt with in detail. This is largely due to a widespread assumption that they play a strictly pragmatic role and therefore fall outside the realm of semantics. This book applies the Natural Semantic Metalanguage approach to analyze a set of four discourse markers: *bueno*, *pues*, *o sea*, *entonces*, as used in a corpus of conversational Colombian Spanish. It demonstrates that these markers do carry semantic meaning and that they can be exhaustively defined. It also shows that while discourse markers are often polysemous, the range of meanings a marker

has is centered around an invariant core that can be identified through examination of its use in discourse Key Features the work will be valuable for students of discourse for the upcoming years whether or not they are working within the Natural Semantic Metalanguage or NSM framework its exemplary methodology makes it obligatory reading for the field
