Kwakiutl String Figures Julia P. Averkieva,1992-06-01 Of the games people play string figures afford nearly universal amusement appearing in more cultures than any other But although over 2 000 individual patterns have been recorded world wide since 1888 when anthropologist Franz Boas first described a pair of Eskimo cat s cradles very few studies have explored North American Indian string figures This intriguing volume publishes for the first time 102 string figures and 10 string tricks collected among the Kwakiutl Indians by Julia Averkieva a young visiting Soviet scholar who accompanied Boas on his 1930 expedition to Vancouver Island When she

returned to Leningrad Averkieva left her unpublished monograph with Boas whose heirs eventually sent it to the American Museum of Natural History in New York Averkieva's study represents the most comprehensive Native American string collection ever assembled from a single tribe In addition to characterizing the social conditions that prompted string figure making among the Kwakiutl during the time of her field study Averkieva noted step by step instructions for each figure and transcribed traditional accompanying chants In editing and expanding Averkieva's manuscript Mark Sherman addresses string figure enthusiasts as well as cultural anthropologists Sherman includes in his introduction a complete description of basic openings and string figure moves For each Kwakiutl figure he has prepared clear illustrations based on Averkieva's original photographs and pencil sketches In addition he has tested each figure for workability clarifying instructions where necessary and recasting them in Rivers and Haddon's standard terminology Sherman's analysis of figure titles suggests that many aspects of Kwakiutl material culture and belief are preserved in string In examining the ethnological value of the collection he discusses the implications of observed similarities between Eskimo and Kwakiutl string figures He also updates Averkieva's preliminary distribution data interspersing the figure descriptions with references to related and identical figures from other cultures Each analysis is keyed to an illustrated cross index Kwakiutl String Figures will interest students of comparative cultures and will delight all who have time and string on their hands
